

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.249

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.249](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002028
- Mfr. No.: 73249
- Diameter (in): .249
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732492

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.249

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.249. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the bushings.

## General Safety Guidelines

- Ensure that the product is used according to the manufacturer's specifications.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling or using the bushings.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- If you encounter any issues or unsafe conditions, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Only use the bushings for their intended purpose as specified by the manufacturer.
- Avoid using the bushings if they show signs of damage, such as cracks or deformation.
- Ensure that the bushings are properly sized for your application to prevent excessive wear or failure.
- Do not modify or alter the bushings in any way, as this may compromise their safety and effectiveness.
- Follow all safety instructions provided with your reloading equipment when using the bushings.

## Instructions for Installation and Usage

### 1. Preparation:

- Clean the area where the bushings will be used to ensure a safe working environment.
- Gather all necessary tools and equipment before starting the installation.

### 2. Installation:

- Select the appropriate bushing size based on your reloading requirements.
- Insert the bushing into the designated area of your reloading die, ensuring a snug fit.
- Secure the bushing according to the manufacturer's instructions.

### 3. Usage:

- Follow the reloading equipment's guidelines for operating the press and using the bushings.
- Monitor the sizing process closely to ensure that the bushings are functioning correctly.
- If you experience any unusual resistance or issues during sizing, stop immediately and inspect the bushings.

### 4. PostUsage:

- Clean the bushings after use to remove any debris or residue.
- Store the bushings in a safe and dry location, away from moisture and extreme temperatures.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they are considered hazardous.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.249, please refer to the manufacturer's contact information provided with your product packaging.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.249. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important safety measures.
