

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.250

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.250](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002029
- Mfr. No.: 73250
- Diameter (in): .250
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732508

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.250

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.250. This guide is designed to provide you with essential safety instructions and guidelines to ensure the safe use of this product. It is important to read and understand this guide before using the bushings.

General Safety Guidelines

- Ensure that the bushings are used in accordance with the manufacturer's specifications.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling and using the bushings.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the bushing size matches the specifications required for your application.
- Avoid using the bushings for purposes other than those intended.
- Do not exceed the recommended sizing diameters.
- Handle the bushings with care to avoid sharp edges that may cause injury.
- If you experience any difficulty during use, stop and consult the guidelines or seek professional assistance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting the installation.
- Ensure that the work area is clean and free of obstructions.

2. Installation:

- Select the appropriate bushing size based on your requirements. The last three digits of the part number (#RD73XXX) indicate the bushing size.
- Insert the bushing into the designated area, ensuring a snug fit.
- If applicable, secure the bushing using the recommended fastening method.

3. Usage:

- Use the bushings as specified in your application. Ensure that you are operating within the recommended sizing diameters of .185" to .368".
- Regularly check the bushings during use for any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check with your local waste management facility

for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please reach out to the designated contact point provided with your product packaging or visit the manufacturer's website for more information.

By following these guidelines, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.250. Thank you for your attention to safety.
