

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.257

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.257](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002030
- Mfr. No.: 73257
- Diameter (in): .257
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732577

## Item details

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.257

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.257. This guide provides essential safety instructions and guidelines to ensure the safe use of the product. Please read this manual carefully before using the bushings to avoid any potential hazards and ensure a safe experience.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified by the manufacturer.
- Keep the bushings out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for any signs of wear or damage before each use.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Report any unsafe conditions or incidents involving the product to the relevant authorities.

## Specific Safety Precautions for Use

- Only use the bushings with compatible resizing equipment to ensure proper function.
- Avoid applying excessive force during resizing to prevent injury or damage to the bushings.
- Do not modify the bushings in any way, as this may compromise their integrity and safety.
- Be aware of the sizing diameters available (.185" thru .368") and select the appropriate size for your application.
- If you experience any unusual resistance or difficulty while using the bushings, stop immediately and inspect for issues.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the resizing process.
- Ensure your workspace is clean and free of any obstructions.

### 2. Installation:

- Select the appropriate bushing size based on your needs (refer to the part number for identification).
- Insert the bushing into the resizing die according to the manufacturer's instructions.

### 3. Usage:

- Place the cartridge case into the resizing die.
- Apply steady and even pressure to resize the case, ensuring not to exceed the recommended force.
- After resizing, remove the cartridge case and inspect it for proper resizing.

### 4. PostUsage:

- Clean the bushings after each use to maintain their performance and longevity.

- Store the bushings in a dry, safe place to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste. Instead, consider recycling if possible.
- Ensure that any packaging materials are disposed of responsibly.

## **Contact Information for Further Support**

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.257, please contact the manufacturer or your local distributor for assistance. They can provide additional support and information.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.257. Thank you for your attention to safety!
