

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.260

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.260](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002032
- Mfr. No.: 73260
- Diameter (in): .260
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732607

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.260

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.260. This guide provides essential safety instructions to ensure the safe use and handling of the product. Please read this guide carefully before using the bushings.

General Safety Guidelines

- Always inspect the bushings before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Follow all instructions for installation and usage to avoid hazards.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the bushing size matches your reloading equipment specifications.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while handling the bushings.
- Avoid using excessive force during the sizing process to prevent injury or damage to the equipment.
- Store bushings in a dry, cool place to prevent corrosion or degradation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before beginning the installation process.
- Ensure your reloading press is clean and in good working condition.

2. Installation:

- Remove any existing bushings from your reloading press.
- Select the appropriate STEEL NECK BUSHING based on your desired sizing diameter.
- Insert the bushing into the reloading press, ensuring it is securely fitted.

3. Usage:

- Adjust your reloading press settings according to the manufacturer's specifications.
- Begin the sizing process, applying steady and even pressure.
- Monitor the sizing process closely to ensure consistent results.

4. PostUsage:

- Remove the bushing from the press after use.
- Clean the bushing to remove any debris or residue.
- Store the bushing properly to maintain its condition.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they are considered hazardous.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.260, please refer to the contact information provided on the product packaging or the manufacturer's website.

This safety instruction guide is designed to help you use the STEEL NECK BUSHINGS safely and effectively. Always prioritize safety and follow the guidelines provided. Thank you for your attention to these important safety measures.
