

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.271

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.271](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002035
- Mfr. No.: 73271
- Diameter (in): .271
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732713

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.271

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.271. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow the guidelines carefully to prevent accidents and injuries.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified by the manufacturer.
- Always inspect the bushings for any signs of damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Follow all local regulations regarding the use and disposal of metal products.

## Specific Safety Precautions for Use

- Be aware of sharp edges on the bushings that may cause cuts or injuries.
- Avoid using excessive force when sizing to prevent damage to the bushing and equipment.
- Ensure that the work area is clean and free of obstructions to prevent accidents.
- Do not exceed the specified sizing diameters to avoid malfunction or injury.
- If you experience resistance during sizing, stop immediately and assess the situation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and personal protective equipment.
- Ensure that the workspace is welllit and organized.

### 2. Installation:

- Select the appropriate bushing size for your application, as indicated by the last three digits of the part number (#RD73XXX).
- Insert the bushing into the sizing die according to the manufacturer's instructions.
- Ensure that the bushing is seated correctly to avoid misalignment.

### 3. Usage:

- Apply consistent and moderate pressure when sizing to achieve the desired results.
- Monitor the sizing process closely to ensure that no excessive force is applied.
- If sizing is not proceeding smoothly, stop and check for any obstructions or issues.

### 4. PostUse:

- Clean the bushings after use to remove any debris or residue.
- Store the bushings in a dry and safe location, away from children and unauthorized users.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations for metal waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options available in your area to minimize environmental impact.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.271, please refer to the contact information provided by the manufacturer on the product packaging or website.

By following these safety instructions, you can ensure a safe and effective experience while using the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.271. Thank you for your attention to these important guidelines.
