

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.289

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.289](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002036
- Mfr. No.: 73289
- Diameter (in): .289
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732898

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.289

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.289. This product is designed for precision and durability in various applications. To ensure safe and effective use, please read this safety instruction guide thoroughly.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always handle the bushing with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for signs of wear or damage before use.
- Follow all safety instructions provided in this guide to minimize risks.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear appropriate PPE, including safety glasses and gloves, when handling or using this product.
- **Work Environment:** Use the bushing in a welllit and clutterfree workspace to prevent accidents.
- **Avoid Contact with Skin:** The bushing may have sharp edges. Avoid direct contact with skin to prevent cuts or abrasions.
- **Proper Storage:** Store the bushings in a dry and secure location to prevent damage and ensure safety.
- **Keep Away from Heat:** Do not expose the bushings to extreme heat or open flames, as this may compromise their integrity.

Instructions for Installation and Usage

1. Preparation:

- Clean the area where the bushing will be installed.
- Gather all necessary tools for installation.

2. Installation:

- Ensure the bushing size matches the specifications needed for your application.
- Insert the bushing carefully into the designated area, ensuring a snug fit.
- If necessary, use a tool to secure the bushing in place, following the manufacturer's guidelines.

3. Usage:

- Once installed, check the bushing for stability before using the equipment.
- Monitor the bushing during use for any signs of wear or failure.
- If any issues arise, cease use immediately and inspect the bushing.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in general waste; check for recycling options if available.

- Ensure that the bushings are completely out of reach of children and pets during disposal.

Contact Information for Further Support

For any safety inquiries or further support, please reach out to the designated contact point provided with your product packaging or documentation.

Thank you for prioritizing safety while using the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.289. Your attention to these guidelines helps ensure a safe and effective experience.
