

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.291

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.291](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002038
- Mfr. No.: 73291
- Diameter (in): .291
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732911

STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.291 Safety Instruction Guide

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.291. This guide provides essential safety information to ensure the safe and effective use of this product. Please read this document thoroughly before using the bushings.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the bushings out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for signs of wear or damage before each use.
- Follow all local regulations regarding the safe handling and use of tools and equipment.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the bushings.
- Ensure that the work area is clean and free of hazards before starting any work.
- Handle the bushings with care to avoid dropping or mishandling, which may cause injury or damage.
- Do not exceed the recommended sizing diameters during use to prevent equipment failure.
- If you experience difficulty during the sizing process, stop and reassess your technique or equipment setup.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and ensure that your work area is clean and organized.
- Inspect the bushings for any visible damage or defects.

2. Installation:

- Select the appropriate bushing size based on your requirements, indicated by the last three digits of the part number (#RD73XXX).
- Securely attach the bushing to the sizing die according to the manufacturer's specifications.
- Ensure that the bushing is properly aligned to avoid missizing.

3. Usage:

- Begin the sizing process at a slow and steady pace to maintain control.
- Monitor the sizing diameter closely to ensure it is within the specified range of .185" to .368".
- If resistance is felt during the sizing process, stop immediately and check for any obstructions or alignment issues.

4. PostUse:

- Clean the bushings after use to remove any debris or contaminants.
- Store the bushings in a dry, secure location to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste; instead, consider recycling options if available.

Contact Information for Further Support

For safety inquiries or additional support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.291, please refer to the manufacturer's contact information provided with your product packaging.

This safety instruction guide is designed to help you use the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.291 safely and effectively. By following these guidelines, you can minimize risks and ensure a productive experience. Thank you for your attention to safety.
