

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.330

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.330](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002040
- Mfr. No.: 73330
- Diameter (in): .330
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733307

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.330

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.330. This guide provides essential safety instructions and usage information to ensure your safety and the effective use of the product. Please read this guide carefully before using the product.

General Safety Guidelines

- **Product Safety:** Ensure safe use by following all instructions provided. This product is designed for nonfood applications and should be used accordingly.
- **Enhanced Recalls:** Stay informed about product recalls. If the product is found to be unsafe, recall notices will be issued, and remedies will be provided at no cost.
- **Online Shopping Safety:** When purchasing online, ensure that the seller complies with safety requirements equivalent to those in physical stores.
- **Special Consumer Focus:** Extra care should be taken when using this product around vulnerable groups, especially children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point for assistance.
- **Rapid Alerts:** Be aware of the Safety Gate system for quick updates on any unsafe products.

Specific Safety Precautions for Use

- Always inspect the bushing for any signs of damage before use.
- Ensure that the bushing is compatible with your reloading equipment.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the product.
- Keep the product out of reach of children and unauthorized users.
- Do not exceed the recommended sizing diameters as specified in the product details.
- Avoid using the bushing in extreme temperatures or environments that may cause degradation.
- If you notice any unusual sounds or performance issues during use, stop immediately and inspect the product.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure that your reloading equipment is clean and free from debris.
 2. Select the appropriate bushing size for your needs, based on the last three digits of the part number (#RD73XXX).
 3. Insert the bushing into the designated area of your reloading equipment, ensuring a snug fit.
 4. Secure the bushing according to your equipment's installation instructions.
- **Usage:**
 1. Set your reloading equipment to the appropriate settings for the selected bushing size.
 2. Begin the reloading process, applying consistent pressure to ensure even sizing.
 3. Monitor the process closely for any signs of resistance or difficulty.
 4. After use, clean the bushing with a soft cloth to prevent buildup of debris.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal recycling.
- Do not dispose of the product in regular household waste.
- Ensure that the product is rendered unusable before disposal to prevent any accidental use.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.330, please consult your retailer or the manufacturer's website for additional support.

Please keep this guide for future reference and ensure that all users of the product are aware of these safety instructions. Your safety is our priority.
