

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.244

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.244](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002044
- Mfr. No.: 73244
- Diameter (in): .244
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732447

# Safety Instructions for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.244

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.244. This product is designed for precision and durability in various applications. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the product as intended and according to the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any signs of damage or wear before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The bushings are made of heat-treated steel, which can pose a risk of injury if mishandled.
  - Ensure that tools used with the bushings are in good condition to prevent accidents.
- **Avoiding Hazards:**
  - Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling or using the bushings.
  - Do not exceed the recommended sizing diameters to prevent damage to the bushing or the equipment.
  - Ensure that the work area is clean and free of obstacles to prevent tripping hazards.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure your workspace is well-lit and organized.

### 2. Installation Instructions:

- Select the correct bushing size based on the last three digits of the part number (#RD73XXX).
- Clean the area where the bushing will be installed to remove any debris or contaminants.
- Carefully insert the bushing into the designated area, ensuring it is properly aligned.
- Secure the bushing in place according to the specific requirements of your equipment or application.

### 3. Usage Instructions:

- Follow the manufacturer's guidelines for the specific application of the bushings.
- Monitor the bushings during use for any signs of wear or damage.
- If a bushing becomes damaged, stop using it immediately and replace it with a new one.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste.
- Consider recycling options if available in your area.

## **Contact Information for Further Support**

For additional information or assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.244, please refer to the manufacturer's website or customer service channels.

By following these safety instructions, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.244. Thank you for your attention to these important safety guidelines.
