

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.247

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.247](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002047
- Mfr. No.: 73247
- Diameter (in): .247
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732478

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.247

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.247. This product is designed for precision and durability in various applications. To ensure safe usage and optimal performance, please read this safety instruction guide carefully.

General Safety Guidelines

- Always inspect the bushing for any visible damage before use.
- Store bushings in a dry, cool place to prevent corrosion.
- Keep out of reach of children and pets to avoid accidental injury.
- Use the bushings only for their intended purpose.
- Follow all local regulations regarding the use and disposal of metal products.

Specific Safety Precautions for Use

- Ensure that you are wearing appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling and installing the bushings.
- Avoid using excessive force during installation to prevent damage to the bushing or the equipment.
- Do not exceed the recommended sizing diameters to avoid potential injury or equipment failure.
- If you experience any difficulty during installation or use, stop immediately and consult a professional.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and equipment before starting the installation.
- Ensure that the work area is clean and free of obstructions.

2. Installation

- Select the correct bushing size based on the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the designated area, ensuring it fits snugly.
- Use a proper tool to secure the bushing without applying excessive force.

3. Usage

- After installation, check for proper alignment and secure fit.
- Monitor the bushing during use for any signs of wear or damage.
- If any irregularities occur, stop using the product immediately and seek assistance.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste management regulations.
- Recycle metal components whenever possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.247, please reach out to the appropriate contact point as per your region's regulations.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
