

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.248

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.248](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002048
- Mfr. No.: 73248
- Diameter (in): .248
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732485

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.248

## Introduction

Thank you for purchasing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.248. This guide provides essential safety instructions to ensure the safe use and handling of this product, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings before use for any signs of damage or wear.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as gloves and safety glasses when handling bushings.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always follow the manufacturer's specifications for sizing and usage.
- Avoid excessive force when inserting or removing bushings to prevent injury or damage.
- Ensure that the work area is clean and free from obstructions before using the bushings.
- Do not use the bushings if they show signs of deformation or cracking.
- Store bushings in a dry and secure location to prevent accidental damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the installation.
- Ensure that the work area is welllit and organized.

### 2. Installation Steps:

- Select the appropriate bushing size based on your needs (sizes range from .185" to .368").
- Clean the area where the bushing will be installed to eliminate any debris.
- Carefully insert the bushing into the designated space, ensuring it fits snugly.
- If resistance is felt, do not force the bushing; check for alignment and debris.
- Once installed, doublecheck that the bushing is secure and properly positioned.

### 3. Usage:

- Use the bushings as specified in your equipment's manual.
- Monitor the bushings during use for any signs of wear or malfunction.
- If any issues arise, discontinue use immediately and consult a professional.

## Disposal Instructions

- Dispose of unused or damaged bushings in accordance with local waste management regulations.
- Do not dispose of bushings in household waste; instead, consider recycling options if available.
- Ensure that bushings are stored safely until they can be disposed of properly to prevent accidental injury.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or recalls, please refer to the manufacturer's contact information provided with your product or consult the EU Safety Gate platform for updates on product safety.

Thank you for prioritizing safety while using the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.248. Your adherence to these guidelines helps ensure a safe and effective experience.
