

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.266

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.266](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002050
- Mfr. No.: 73266
- Diameter (in): .266
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732669

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.266

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.266. This product is designed to provide reliable performance for your reloading needs. It is essential to follow the safety guidelines outlined in this document to ensure safe and effective use.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Handle the bushings with care to avoid injury.
- Use protective eyewear when operating equipment that utilizes the bushings.
- Ensure that the sizing diameters are clean and free from debris before use.
- Do not exceed the recommended sizing diameter limits.
- If you experience difficulty during sizing, stop use and inspect the bushing for damage.
- Follow all manufacturer guidelines regarding the use of the bushings.

Instructions for Installation and Usage

1. Preparation

- Ensure you have the correct bushing size for your application. The size is indicated by the last three digits of the part number (#RD73XXX).
- Gather all necessary tools and equipment for installation.

2. Installation

- Remove any existing bushings from your reloading equipment.
- Clean the bushing area to ensure a proper fit.
- Insert the new bushing into the designated slot, ensuring it is securely in place.

3. Usage

- Adjust your reloading equipment according to the manufacturer's instructions.
- Begin the sizing process slowly, ensuring that the bushing operates smoothly.
- Monitor the sizing effort; if resistance is felt, stop and inspect the bushing.

4. PostUsage Care

- After use, clean the bushings with a soft cloth to remove any residue.
- Store the bushings in a dry, safe place to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of bushings in regular household waste.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product. It is important to have an EU-based contact for any safety concerns.

By following these safety instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.266. Thank you for your commitment to safety.
