

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.267

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.267](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002051
- Mfr. No.: 73267
- Diameter (in): .267
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732676

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.267

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.267. This guide provides essential safety information to ensure the safe and effective use of this product. Please read this guide carefully and keep it for future reference.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this guide.
- Always follow the manufacturer's instructions and guidelines to minimize risks.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage before use.
- In case of any defects or concerns, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Use protective eyewear when handling or installing the bushings to prevent eye injuries.
- Ensure that your working environment is clean and free from hazards.
- Avoid using excessive force when sizing, as this may lead to injury or damage to the product.
- Do not modify the bushings in any way, as this may compromise safety and performance.
- Ensure proper ventilation when using the bushings in conjunction with other materials or tools.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before beginning installation.
- Ensure that the work area is welllit and organized.

2. Installation:

- Align the bushing with the appropriate sizing tool.
- Gently insert the bushing into the tool, ensuring it is seated properly.
- Apply even pressure to size the bushing, avoiding excessive force.

3. Usage:

- Use the bushings only within the specified sizing range of .185" to .368".
- Check the sizing diameter regularly to ensure optimal performance.
- Store the bushings in a dry place away from extreme temperatures and moisture.

Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Instead, check with local waste management services for proper disposal methods.
- Recycle materials whenever possible to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product information, please contact your local distributor or the manufacturer directly. Ensure you have the product details ready for faster assistance.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.267. Your safety is our priority, so please do not hesitate to seek help if you have any questions or concerns. Thank you for your attention to safety.
