

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.269

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.269](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002052
- Mfr. No.: 73269
- Diameter (in): .269
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732690

Safety Instructions for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.269

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.269. This guide provides important safety instructions and usage guidelines to ensure the safe and effective use of this product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the product out of reach of children and vulnerable individuals.
- If you notice any unusual behavior or performance while using the bushings, discontinue use immediately and consult a professional.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling or using the bushings.
- Avoid using the bushings in environments where they may be exposed to extreme temperatures or corrosive substances.
- Ensure that the bushings are properly sized for your application to prevent misalignment or damage.
- Do not exceed the recommended sizing diameters to avoid compromising the integrity of the bushings.
- Follow all manufacturer guidelines regarding the use and maintenance of the product.

Instructions for Installation and Usage

1. Preparation

- Before installation, ensure that all tools and materials are ready and that you are in a safe working environment.
- Clean the area where the bushings will be installed to prevent contamination.

2. Installation Steps

- Select the appropriate bushing size based on your specifications (.185" to .368").
- Align the bushing with the corresponding component, ensuring it fits snugly.
- Gently press or slide the bushing into place, avoiding excessive force that could cause damage.
- Once installed, check for proper alignment and secure it as necessary.

3. Usage Guidelines

- Use the bushings as intended, following the specifications provided by the manufacturer.
- Regularly monitor the condition of the bushings during use and replace them if any signs of wear or damage are detected.
- Store unused bushings in a cool, dry place to prevent deterioration.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options for metal components if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.269, please contact the manufacturer or check the product packaging for additional support resources.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS.
