

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.270

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.270](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002053
- Mfr. No.: 73270
- Diameter (in): .270
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732706

Consumer Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.270

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.270. This guide provides essential safety information and usage instructions to ensure your safety and the effective use of this product. Please read this document carefully before using the bushings.

General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the bushings for any signs of damage or wear before each use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose to avoid accidents or injuries.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for updates on product recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Handle the bushings with care to avoid injury. Sharp edges may be present.
- Ensure that your work area is clean and free from clutter to prevent accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the bushings.
- Do not exceed the specified sizing diameters to avoid damaging the bushings or your equipment.
- Ensure that the bushings are properly lubricated to reduce friction during use.
- If you experience any difficulties or if the bushings do not fit correctly, cease use immediately and consult a professional.

Instructions for Installation and Usage

1. **Preparation:** Before using the bushings, ensure that your reloading equipment is clean and properly set up.
2. **Selection of Bushing Size:** Identify the correct bushing size needed for your specific application. The last three digits of the part number (#RD73XXX) indicate the bushing size.
3. **Installation:**
 - Carefully insert the bushing into the reloading die.
 - Ensure that it is seated correctly and securely.
4. **Usage:**
 - Begin the sizing process according to your reloading instructions.
 - Apply even pressure and maintain control throughout the sizing operation.
 - If resistance is encountered, stop and check for misalignment or other issues.
5. **PostUse Care:**
 - Clean the bushings after use to remove any debris or residue.
 - Store the bushings in a dry, safe place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they contain hazardous materials.
- Check with your local waste management authority for appropriate disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.270, please refer to the manufacturer's contact information provided on the product packaging or the manufacturer's website.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using your product.
