

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.331

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.331](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002055
- Mfr. No.: 73331
- Diameter (in): .331
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733314

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.331

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.331. This guide provides important safety information to ensure the safe and effective use of this product. Please read through the entire document before using the bushings to understand the potential hazards and how to mitigate them.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use and maintenance.
- Ensure that all users of the product are aware of the safety precautions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for signs of wear or damage before use.
- If the product is damaged or shows signs of excessive wear, discontinue use immediately.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use only with compatible reloading equipment to ensure safety and proper function.
- Wear appropriate protective gear, including safety glasses and gloves, when handling or using the bushings.
- Avoid using the bushings in environments with excessive moisture or extreme temperatures.
- Ensure that the workspace is clean and free from hazards that could cause accidents during use.
- Do not exceed the specified sizing diameters when using the bushings to avoid damage or injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the installation process.
- Ensure that the work area is welllit and organized.

### 2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the sizing die according to the manufacturer's instructions.
- Ensure that the bushing is securely in place before proceeding.

### 3. Usage:

- Follow the reloading equipment's guidelines for operating the press with the installed bushing.
- Monitor the sizing process closely to ensure consistent results and prevent oversizing.
- After use, remove the bushing from the die and clean it to maintain its performance.

### 4. PostUsage Care:

- Store the bushings in a dry, cool place away from direct sunlight.
- Regularly check the bushings for any signs of damage or wear and replace them as necessary.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste. Instead, consider recycling options where available.
- Ensure that any hazardous materials are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.331, please refer to the manufacturer's contact details provided with the product packaging or on their official website.

Thank you for taking the time to read this safety instruction guide. Your safety and satisfaction are our top priorities. Always prioritize safety when using our products.
