

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.332

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.332](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002056
- Mfr. No.: 73332
- Diameter (in): .332
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733321

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.332

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.332. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this manual carefully before use to understand the necessary precautions and proper handling of the bushings.

General Safety Guidelines

- Ensure that the bushings are used in accordance with the manufacturer's specifications.
- Regularly inspect the bushings for any signs of wear or damage before each use.
- Store the bushings in a dry, clean environment to prevent corrosion or damage.
- Keep the bushings out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the appropriate authorities immediately.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- **Handling:** Always handle the bushings with care to avoid injury. Sharp edges may be present.
- **Installation:** Follow the installation instructions carefully to ensure proper fit and function.
- **Personal Protective Equipment (PPE):** Wear appropriate PPE such as gloves and safety glasses when handling the bushings.
- **Compatibility:** Ensure the bushings are compatible with your equipment to prevent operational hazards.
- **Force Application:** Use the appropriate force when inserting or adjusting the bushings to avoid damaging the product or the equipment.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment required for installation.
- Ensure the workspace is clean and free of obstructions.

2. Installation:

- Identify the correct size of the bushing needed for your application based on the part number (#RD73XXX).
- Align the bushing with the corresponding component.
- Carefully insert the bushing, ensuring it fits snugly without excessive force.

3. Usage:

- Once installed, verify that the bushing operates smoothly within the assembly.
- Regularly check the bushing during use for any signs of wear or malfunction.

4. Maintenance:

- Clean the bushings periodically to remove any debris or buildup.
- Inspect the bushings for signs of damage or wear and replace if necessary.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Recycle the steel bushings wherever possible to minimize environmental impact.
- Do not dispose of bushings in regular household waste; check for designated recycling centers.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website. Always ensure you have the product details ready when seeking support.

By following these safety instructions, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.332. Thank you for prioritizing safety in your use of this product.
