

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.336

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.336](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002057
- Mfr. No.: 73336
- Diameter (in): .336
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733369

Safety Instructions for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.336

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.336. This product is designed for enhanced performance in various applications. To ensure your safety and the safe use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always handle the bushings with care to avoid injury.
- Ensure that the product is used in accordance with the manufacturer's guidelines.
- Keep the bushings out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as gloves and safety goggles when handling the bushings.
- Ensure that the working environment is clean and free from hazards.
- Avoid using the bushings if they show any signs of damage or wear.
- Do not exceed the specified sizing diameters during use to prevent malfunction or injury.
- Store the bushings in a dry and secure location when not in use.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is clean and welllit.
- Gather all necessary tools and materials before starting.

2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the designated area of your equipment, ensuring a snug fit.
- Confirm that the bushing is properly aligned and securely in place.

3. Usage:

- Follow the specific guidelines for your equipment to ensure proper operation.
- Monitor the bushing during use for any signs of overheating or unusual wear.
- If any issues arise, stop using the equipment immediately and inspect the bushing.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste.
- Check with local recycling centers for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support related to the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.336, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.336. Thank you for prioritizing safety in your use of this product.
