

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.337

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.337](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002058
- Mfr. No.: 73337
- Diameter (in): .337
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733376

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.337

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.337. This guide provides essential safety instructions and usage information to ensure your safety and the effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Always use the bushings as intended.
- Ensure that the bushings are compatible with your equipment.
- Regularly inspect the bushings for any signs of wear or damage.
- Do not use damaged or worn bushings.
- Keep the bushings out of reach of children and vulnerable individuals.
- In case of any safety concerns, report unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that you are wearing appropriate personal protective equipment (PPE) such as safety glasses and gloves while handling the bushings.
- Avoid using excessive force when installing or removing the bushings to prevent injury or damage.
- Make sure that the work area is clean and free of any hazards before using the bushings.
- Follow the manufacturer's specifications for sizing and installation to avoid accidents.
- Be cautious of sharp edges on the bushings, as they may cause cuts or injuries.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and equipment for installation.
- Ensure that the work area is welllit and organized.

### 2. Installation

- Select the appropriate bushing size based on your requirements. The last three digits of the part number (#RD73XXX) denote the bushing size.
- Carefully align the bushing with the corresponding component.
- Gently insert the bushing into place, ensuring that it fits snugly without excessive force.

### 3. Usage

- Once installed, ensure that the bushing is secure before operating any equipment.
- Regularly check the bushing during use for any signs of wear or loosening.
- If you notice any issues, stop using the equipment immediately and inspect the bushing.

### 4. Maintenance

- Clean the bushings regularly to remove any debris or contaminants.
- Store the bushings in a dry and safe location when not in use.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not discard bushings in regular household waste; instead, use designated recycling or hazardous waste facilities if applicable.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.337, please refer to the manufacturer's contact information, which can typically be found on the product packaging or the manufacturer's website.

Please remember to stay informed about product recalls and safety updates through the EU's Safety Gate platform. Your safety is paramount, and we appreciate your cooperation in following these guidelines. Thank you for choosing our product.
