

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.333

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.333](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002059
- Mfr. No.: 73333
- Diameter (in): .333
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733338

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.333

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.333. This guide provides essential safety information and instructions for the safe use of this product. Please read this document carefully to ensure proper handling and usage.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling or installing the bushings.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any visible damage or defects before use. Do not use damaged products.
- If you experience any issues or have concerns about the product, stop using it immediately and seek assistance.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Sharp edges may cause cuts. Handle with care.
 - Improper installation may lead to equipment malfunction. Follow installation instructions closely.
- **Avoiding Hazards:**
 - Always ensure the bushing is clean and free of debris before installation.
 - Use the correct tools for installation to prevent accidents.
 - Do not force the bushing into place; ensure proper alignment.

Instructions for Installation and Usage

- **Installation:**
 1. Gather all necessary tools and ensure you have a clean working environment.
 2. Verify the size of the bushing you are using corresponds to the specifications required for your application.
 3. Carefully insert the bushing into the designated area, ensuring it is aligned correctly.
 4. Use appropriate tools to secure the bushing, following the manufacturer's guidelines for torque and fitting.
 5. Doublecheck the installation for any loose fittings or misalignments.
- **Usage:**
 - Once installed, regularly check the bushing for wear and tear.
 - If you notice any signs of damage or if the bushing does not perform as expected, remove it and replace it with a new one.
 - Follow any additional equipment-specific guidelines for the operation of machinery using this bushing.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal waste.
- Do not dispose of the product in general waste. Check with local authorities for recycling options.
- Ensure that the product is completely removed from any machinery before disposal.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please reach out to the appropriate EUbased contact point. Ensure you have the product information and any relevant details ready to assist in your inquiry.

Conclusion

By following these safety instructions, you can help ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.333. Always prioritize safety and seek assistance when needed. Thank you for your attention to these important guidelines.
