

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.334

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.334](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002060
- Mfr. No.: 73334
- Diameter (in): .334
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733345

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.334

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.334. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this document carefully before use.

## General Safety Guidelines

- **Product Safety:** This bushing is designed for safe use when handled and utilized correctly. Ensure that you follow all instructions provided.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized notices. Please stay informed about any recalls that may affect this product.
- **Online Shopping:** When purchasing online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when this product is used around vulnerable groups, such as children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point provided by your retailer.
- **Rapid Alerts:** Stay updated on product safety via the EU's Safety Gate system for rapid alerts on unsafe products.

## Specific Safety Precautions for Use

- Always inspect the bushing for any signs of damage or wear before use.
- Use the bushing only for its intended purpose, which is sizing necks of cases in reloading applications.
- Ensure that the bushing is properly fitted to your reloading equipment to avoid accidents.
- Keep the product out of reach of children and pets.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this product.
- Do not exceed the recommended sizing diameters to avoid potential damage to your equipment or injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your reloading press is clean and free from debris.
- Gather all necessary tools and materials before starting.

### 2. Installation:

- Insert the bushing into the reloading die according to the manufacturer's instructions.
- Ensure that the bushing is securely in place and properly aligned.

### 3. Usage:

- Adjust the reloading press settings according to the specifications for the bushing size being used.
- Perform a test run with a dummy cartridge to ensure proper sizing and operation.
- Monitor the sizing process closely to ensure that the bushing is functioning as intended.

#### **4. PostUse:**

- After use, clean the bushing with a soft cloth to remove any residue or debris.
- Store the bushing in a dry, cool place away from direct sunlight and moisture.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, consider recycling options if available.
- Ensure that the product is completely cleaned before disposal to prevent environmental contamination.

## **Contact Information for Further Support**

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.334, please reach out to your retailer or the designated EU contact point for assistance.

Thank you for your attention to these safety guidelines. Your safety is our priority.
