

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.335

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.335](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002061
- Mfr. No.: 73335
- Diameter (in): .335
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733352

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.335

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.335. This guide provides essential safety information to ensure the safe use, installation, and disposal of this product. Please read and follow these instructions carefully to prevent accidents and injuries.

General Safety Guidelines

- Always use the bushings according to the manufacturer's specifications.
- Inspect the bushings for any visible damage before use. Do not use damaged products.
- Keep the bushings out of reach of children and pets to prevent accidental injury.
- When handling the bushings, wear appropriate personal protective equipment (PPE) such as gloves and safety glasses.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the sizing diameters are compatible with your equipment before use.
- Do not exceed the recommended sizing limits to avoid equipment damage or personal injury.
- Use the bushings only for their intended purpose. Misuse can lead to accidents.
- Avoid exposure to extreme temperatures or harsh chemicals that may affect the integrity of the bushings.
- Store the bushings in a dry and safe location to prevent corrosion or damage.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and equipment before starting the installation.
- Ensure your workspace is clean and free from hazards.

2. Installation

- Select the appropriate bushing size based on your requirements. Refer to the last three digits of the part number (#RD73XXX) for size identification.
- Carefully insert the bushing into the designated area of your equipment.
- Ensure that the bushing fits securely and is aligned correctly.

3. Usage

- Follow the operational guidelines of your equipment when using the bushings.
- Regularly check the bushings during use for any signs of wear or damage.
- If you notice any irregularities, stop using the equipment immediately and inspect the bushings.

Disposal Instructions

- Dispose of the bushings in accordance with local regulations regarding metal waste.
- Do not dispose of the bushings in regular household waste.

- Consider recycling options where available to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding safety or usage of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.335, please refer to the manufacturer's contact information provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.335. Always prioritize safety and report any concerns to the appropriate authorities. Thank you for your attention to these important guidelines.
