

CASE LUBE KIT AND PAD - REDDING CASE LUBE PAD

[Reloading](#) > [Case Preparation](#) > [Case Lube](#)

Using a lube pad is one way to lubricate cases for resizing and forming. The Redding case lube kit includes lube pad and a 2 oz. Bottle of their original formula case lube. The lube pad has non-skid feet to keep the pad from sliding around your bench when in use. Redding's case lube is formulated for tough sizing and forming operations and to prolong the life of your dies. Items also sold individually.

Safety Instruction Guide for Redding Case Lube Kit and Pad

Introduction

Thank you for choosing the Redding Case Lube Kit and Pad. This product is designed to assist you in lubricating cases for resizing and forming. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle the product with care to prevent accidents.
- Use the product only for its intended purpose, as described in the product text.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any recalls or safety alerts related to this product on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the work area is clean and free from obstructions before using the lube pad.
- Do not use the lube pad on surfaces that may be damaged by lubricant.
- Avoid contact with eyes and skin. If contact occurs, wash thoroughly with soap and water.
- In case of ingestion or severe exposure, seek medical attention immediately.
- Store the lube kit in a cool, dry place, away from direct sunlight and heat sources.

Instructions for Installation and Usage

1. Preparing the Work Area

- Clear your workbench and ensure it is stable.
- Place the lube pad on the work surface, ensuring it is secure and stable.

2. Using the Lube Pad

- Open the bottle of Redding's original formula case lube.
- Apply a thin, even layer of lubricant to the lube pad.
- Roll or press the cases onto the lube pad to evenly coat them with lubricant.

3. Resizing and Forming Cases

- Once the cases are lubricated, proceed with your resizing and forming operations as per your equipment's instructions.
- Ensure that the cases are adequately lubricated to prevent sticking and damage to your reloading dies.

4. Cleaning Up After Use

- After completing your work, clean the lube pad with a soft cloth to remove any excess lubricant.
- Store the lube pad and bottle of lubricant in their original packaging or a safe place for future use.

Disposal Instructions

- Dispose of any unused or expired lubricant in accordance with local regulations.

- Do not pour lubricant down the drain or dispose of it in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Redding Case Lube Kit and Pad, please contact the manufacturer or an authorized distributor. Ensure you have the product information available for reference.

Thank you for prioritizing safety while using the Redding Case Lube Kit and Pad. Your adherence to these guidelines helps ensure a safe and effective experience.
