

SINCLAIR COMPETITION LOADING BLOCK, PPC FAMILY

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The ""Poly"" blocks are dishwasher safe for easy cleaning. The white material was selected because spilled powder easily shows up. These blocks were designed for competition shooters that shoot from the bench. Each block has 25 holes and an open tray for throwing the empties into. When you have to hurry during a wind condition there isn't enough time to put an empty into a hole. Available in select sizes.

Attributes

Safety Instruction Guide for SINCLAIR COMPETITION LOADING BLOCK

Introduction

Thank you for choosing the SINCLAIR COMPETITION LOADING BLOCK, designed specifically for reloaders using the PPC family of cartridges. This guide provides essential safety instructions to ensure the safe and effective use of your loading block. Please read this guide carefully before use.

General Safety Guidelines

- Always ensure that the loading block is used in a wellventilated area.
- Keep the loading block out of reach of children and pets.
- Do not use the loading block for any purpose other than its intended use.
- Regularly inspect the loading block for signs of wear or damage. If damaged, discontinue use immediately.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the loading block is placed on a stable, flat surface before use.
- Avoid overfilling the loading block with cases to prevent spillage.
- Use caution when handling cases, as sharp edges may be present.
- Do not attempt to modify the loading block in any way.
- When cleaning the loading block, ensure it is completely dry before storing to prevent any moisturerelated damage.

Instructions for Installation and Usage

1. Placement:

- Place the loading block on a stable and level surface to prevent tipping or spilling.

2. Loading Cases:

- Insert cases into the holes of the loading block. Each block holds up to 25 rounds.
- Ensure that the cases are inserted fully into the holes for stability.
- Use the finger grooves on the sides of the block for a secure grip.

3. Cleaning:

- The loading block is dishwasher safe. Place it on the top rack for cleaning.
- Alternatively, you can wash it by hand with mild soap and water.
- Rinse thoroughly and allow to air dry completely before storage.

4. Storage:

- Store the loading block in a cool, dry place away from direct sunlight.
- Ensure the block is free from dust and debris before storing.

Disposal Instructions

- When the loading block reaches the end of its usable life, dispose of it in accordance with local regulations.
- Do not dispose of the loading block in regular household waste if it is made from recyclable materials. Check local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the SINCLAIR COMPETITION LOADING BLOCK, please refer to your retailer or the appropriate contact provided at the point of purchase.

Thank you for following these safety instructions. Enjoy your reloading experience!
