

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .337

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .337](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002408
- Mfr. No.: B-337
- Diameter (in): .337
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025272

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .337 Safety Instructions

## Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .337. This product is designed to provide precise neck sizing for your reloading needs. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- **Product Safety:** This product has been designed with safety in mind. Ensure that you use it according to the instructions provided to minimize any risks associated with its use.
- **Enhanced Recalls:** In the unlikely event of a product recall, you will be notified with standardized recall notices. Ensure you stay informed about any updates.
- **Online Shopping:** When purchasing this product online, be assured that it meets the same safety standards as products purchased in physical stores.
- **Special Consumer Focus:** This product is intended for adult users. Keep out of reach of children to prevent accidents.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided on the packaging or the manufacturer's website.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

### • Hazard Identification:

- The primary hazard associated with this product is improper sizing, which can lead to unsafe ammunition.
- Improper handling or use can result in injury or damage to equipment.

### • Avoiding Hazards:

- Always ensure that the bushing is properly fitted to your die before use.
- Do not force the bushing into the die if it does not fit easily.
- Handle the bushing with care to avoid sharp edges that may cause injury.

### • Age Specific Warnings:

- This product is not intended for use by individuals under the age of 18 without adult supervision.
- Ensure that any individuals using this product have adequate knowledge and experience in reloading.

## Instructions for Installation and Usage

### • Installation:

1. Ensure that your reloading press is clean and free from debris.
2. Carefully remove the bushing from its packaging.
3. Insert the bushing into the die, ensuring it is seated properly.
4. Tighten the die to secure the bushing in place.

### • Usage:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
- For emergency sizing, you may turn the bushing over with the markings facing down towards the case.
- Use the bushing with care to avoid excess sizing, which can lead to case damage or unsafe ammunition.

## Disposal Instructions

- Dispose of the bushing responsibly.
- Do not throw it in regular household waste.
- Follow local regulations for the disposal of metal products.
- Consider recycling options available in your area.

## Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .337, please refer to the contact details provided on the packaging or visit the manufacturer's website for further support.

Thank you for prioritizing safety while using this product. Enjoy your reloading experience!
