

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .250

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .250](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002423
- Mfr. No.: B-250
- Diameter (in): .250
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024404

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .250 Safety Instructions

## Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .250. This guide provides essential safety instructions to ensure the safe use of this product. It is crucial to follow these guidelines to prevent accidents and achieve optimal performance.

## General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of the potential hazards associated with the use of this product.
- Always supervise use by inexperienced individuals, especially children.
- Regularly check for updates or recalls on the EU Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear safety glasses and appropriate protective gear when using the neck sizing bushing.
- Ensure that the bushing is compatible with your specific die and cartridges.
- Do not use the bushing if it shows signs of damage or excessive wear.
- Keep the work area clean and free from distractions to avoid accidents.
- Use the bushing only as intended; do not modify or alter it in any way.
- Store the bushing in a safe place, out of reach of children and pets.

## Instructions for Installation and Usage

### 1. Selecting the Correct Bushing Size:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the correct bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

### 2. Installing the Bushing:

- Ensure the die is clean and free from debris.
- Insert the bushing into the die, ensuring it is seated properly.
- Confirm that the markings on the bushing are correctly oriented for use.

### 3. Using the Bushing:

- Place the cartridge in the die and apply even pressure to resize the neck.
- If the brass has hardened, you may turn the bushing over with the markings facing down for a tighter fit.
- Monitor the process carefully to avoid oversizing.

### 4. PostUse Care:

- Clean the bushing after each use to maintain its integrity.
- Inspect the bushing for any signs of wear or damage before storing.

## **Disposal Instructions**

- Dispose of the product responsibly according to local regulations.
- Do not dispose of the bushing in regular household waste.
- Consider recycling options if available.

## **Contact Information for Further Support**

For any inquiries regarding safety or product performance, please refer to your local distributor or manufacturer contact. Always ensure that you have the necessary information readily available should you need assistance.

By following these safety instructions, you can ensure a safe and effective experience with the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .250. Thank you for your attention to safety.
