

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .261

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .261](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002425
- Mfr. No.: B-261
- Diameter (in): .261
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024510

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .261 Safety Instructions

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .261. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before use to understand the potential hazards and how to avoid them.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a neck sizing bushing for reloading ammunition.
- Always handle the neck sizing bushing with care to avoid injury from sharp edges.
- Do not use the bushing if it appears damaged or worn. Inspect it regularly for any signs of wear and tear.
- Keep the bushing out of reach of children and vulnerable individuals to prevent accidental injury.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the neck sizing bushing.
- Ensure that your workspace is clean and free from clutter to avoid accidents during the reloading process.
- When measuring the outside neck diameter or neck wall thickness, use precise measuring tools to ensure accuracy.
- If you are unfamiliar with the reloading process, seek guidance from experienced reloaders or consult instructional materials.
- Be aware that using the bushing in a manner not described in the instructions may lead to unsafe conditions.

Instructions for Installation and Usage

1. Selecting the Correct Bushing Size

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Using the Bushing

- Insert the bushing into the neck sizer die according to the manufacturer's instructions.
- If the brass has hardened or does not hold the bullet properly, you may turn the bushing over with the markings facing down for a tighter fit.
- Always ensure the bushing is securely in place before using the die.

3. PostUse Care

- Clean the bushing after each use to prevent debris buildup.
- Store the bushing in a safe, dry place away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the neck sizing bushing responsibly and in accordance with local regulations.
- Do not dispose of the bushing in regular household waste if it is damaged or broken.
- Check with local recycling programs or hazardous waste facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .261, please refer to the manufacturer's contact information provided with your product or visit their official website for assistance.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .261. Thank you for your attention to safety and responsible use.
