

# NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .328

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .328](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002431
- Mfr. No.: B-328
- Diameter (in): .328
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025180

# NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .328 Safety Instruction Guide

## Introduction

Thank you for choosing the L.E. Wilson Steel Neck Sizer Die Bushing .328. This guide provides essential safety instructions and usage information to ensure the safe and effective use of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the neck bushing with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- If you notice any defects or issues, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Before using the neck bushing, ensure that your workspace is clean and free from any obstructions.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, to protect your eyes from potential debris.
- Use the neck bushing only with compatible L.E. Wilson dies. Do not attempt to use it with Forster or RCBS dies.
- When measuring the neck diameter of your cartridge, ensure that you do so accurately to avoid incorrect sizing.
- If you are unsure about the correct size to use, refer to the measurement guidelines provided in the product description.

## Instructions for Installation and Usage

### 1. Measuring the Neck Diameter:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate neck bushing size.

### 2. Alternative Measurement Method:

- Measure the neck wall thickness of your case.
- Multiply the neck wall thickness by two.
- Add the diameter of your bullet to this measurement.
- Subtract .002" to .003" to find the correct neck bushing size.

### 3. Installing the Neck Bushing:

- Ensure the die is clean and free from debris.
- Insert the neck bushing into the die, ensuring it is seated correctly.
- Tighten any locking mechanisms to secure the bushing in place.

### 4. Using the Neck Bushing:

- If the brass has hardened and is springing back more than expected, you can turn the bushing over with the markings facing down.

- This is an emergency step and should only be used when necessary.

#### **5. PostUse Inspection:**

- After use, inspect the neck bushing for any signs of wear or damage.
- Clean the bushing to remove any residue from the sizing process.

## **Disposal Instructions**

- Dispose of the neck bushing in accordance with local regulations.
- Do not dispose of the product in regular household waste if it is damaged or broken.
- Consider recycling options if available in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the L.E. Wilson Steel Neck Sizer Die Bushing .328, please refer to the manufacturer's website or contact their customer support.

## **Conclusion**

By following the safety instructions outlined in this guide, you can ensure a safe and effective experience with your L.E. Wilson Steel Neck Sizer Die Bushing .328. Remember to always prioritize safety and seek assistance if needed. Thank you for your attention to these important guidelines.
