

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .326

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .326](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002439
- Mfr. No.: B-326
- Diameter (in): .326
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025166

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .326 Safety Instruction Guide

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .326. This guide provides essential safety information and instructions for the safe use of this product, ensuring compliance with the EU General Product Safety Regulation (GPSR). Please read this manual carefully before use to ensure safe operation and to maximize the performance of your neck sizer die bushing.

General Safety Guidelines

- Ensure the product is suitable for your intended use by verifying the specifications.
- Always follow the manufacturer's instructions for safe handling and operation.
- Store the product in a cool, dry place, away from direct sunlight and moisture.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage before use.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use the neck bushing with compatible dies to avoid accidents or equipment failure.
- When using the neck bushing, ensure that it is securely installed to prevent it from loosening during operation.
- Avoid excessive force when resizing cases, as this may lead to product damage or personal injury.
- Do not attempt to modify or alter the neck bushing in any way, as this could compromise safety and performance.
- If the brass has hardened, use the emergency step of turning the bushing over with markings facing down to achieve tighter sizing.
- Always wear appropriate safety gear, such as safety glasses, when using tools and equipment.

Instructions for Installation and Usage

1. **Preparation:** Ensure you have the right tools and equipment ready for installation.
2. **Measuring:**
 - Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for optimal neck tension.
 - Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
3. **Installation:**
 - Ensure the neck bushing is clean and free from debris.
 - Insert the neck bushing into the neck sizer die, ensuring it is seated properly.
 - Tighten the die according to the manufacturer's instructions to secure the neck bushing in place.
4. **Usage:**
 - Place the case into the die and apply even pressure to resize.
 - If necessary, flip the bushing with the markings facing down for tighter sizing.
5. **PostUse Care:**
 - After use, clean the neck bushing to remove any brass residue or debris.
 - Store the neck bushing in a protective case to prevent damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations to minimize environmental impact.
- For metal components, consider recycling options where available.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .326, please refer to the manufacturer's customer support resources. Be sure to have your product details and any relevant information ready for assistance.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective experience with your neck sizer die bushing.
