

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .334

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .334](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002466
- Mfr. No.: B-334
- Diameter (in): .334
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025241

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .334 Safety Instruction Guide

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .334. This guide provides essential safety information to ensure the safe and effective use of this product. It is important to read and understand these instructions before use.

General Safety Guidelines

- **Product Safety:** This product is designed to ensure safe use and complies with all relevant safety standards. Always follow the provided instructions to minimize risks.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. If a recall occurs, follow the instructions provided to ensure your safety.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when this product is used by individuals who may be less experienced or vulnerable, including beginners in reloading.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU contact point. Ensure that you have access to this information.
- **Rapid Alerts:** Check the EU's Safety Gate platform regularly for updates on any unsafe products.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use of the neck sizing bushing can lead to inconsistent neck tension, which may affect bullet seating and accuracy.
 - Ensure that the bushing is not damaged or worn before use to prevent accidents.
- **Avoiding Hazards:**
 - Always use the correct size bushing for your cartridge to prevent excessive sizing, which can lead to case damage.
 - Do not exceed the recommended sizing limits. If you are unsure, consult the product specifications or seek expert advice.
- **AgeSpecific Warnings:**
 - This product is intended for use by adults only. Keep out of reach of children and inexperienced individuals.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure that your reloading press is clean and free of debris.
 2. Select the appropriate neck sizing bushing based on your measurements.
 3. Insert the bushing into the die, ensuring it is securely in place.
- **Usage:**

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for proper sizing.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".
- For emergency sizing, turn the bushing over with markings facing down towards the case.
- Always check the fit of the bushing before full operation to ensure safety and effectiveness.

- **PostUse Care:**

- Clean the bushing after each use to maintain performance and longevity.
- Store the bushing in a dry, safe place to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations. Do not dispose of them in regular household waste.
- If you are unsure about how to dispose of the product, contact your local waste management service for guidance.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the appropriate contact point in your region. Ensure you have access to these resources for assistance.

By following these guidelines, you can ensure a safe and effective experience with the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .334. Thank you for your attention to safety and proper usage.
