

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .244

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .244](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002474
- Mfr. No.: B-244
- Diameter (in): .244
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145024343

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .244 Safety Instructions Guide

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .244. This product is designed for precision reloading and is made from hardened stainless steel. It is essential to follow all safety guidelines and instructions to ensure safe and effective use.

General Safety Guidelines

- Product Safety: Ensure safe use of this neck bushing by following all instructions provided. This product is not a toy and should be used only by adults or under adult supervision.
- Enhanced Recalls: Stay informed about any product recalls. If a recall notice is issued, follow the instructions provided for returning or disposing of the product.
- Online Shopping: If purchased online, ensure the retailer meets safety requirements and provides clear product information.
- Special Consumer Focus: Extra caution is advised when using this product around children. Keep it out of reach to prevent accidental injuries.
- EU Contact Point: For safety inquiries, please refer to the appropriate EU-based contact as indicated on the product packaging or retailer website.
- Rapid Alerts: Monitor the EU's Safety Gate platform for updates on any unsafe products and follow the guidance provided.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using this product to prevent injury from potential debris.
- Inspect the neck bushing for any signs of damage or wear before each use. Do not use if damaged.
- Ensure that the bushing is properly seated in the die before use to prevent accidents.
- Do not exceed the recommended sizing limits as indicated in the product specifications.
- Only use the neck bushing with compatible dies. This product will not interchange with Forster or RCBS dies.
- Avoid using excessive force when resizing cases to prevent damage to both the bushing and the cases.
- Keep the workspace clean and organized to minimize the risk of accidents.

Instructions for Installation and Usage

• Installation:

1. Ensure the die is clean and free of debris.
2. Insert the neck bushing into the die, ensuring it is securely fitted.
3. Adjust the die according to the manufacturer's specifications for your specific reloading setup.

• Usage:

1. Measure the outside neck diameter of your loaded cartridge.
2. Subtract .002" to .003" from this measurement to determine the appropriate bushing size.
3. Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
4. Insert the cartridge into the die and apply a smooth, even pressure to resize the neck.

5. If necessary, turn the bushing over with the markings facing down for a tighter fit, but only under emergency circumstances.

Disposal Instructions

- Dispose of the neck bushing responsibly. Follow local regulations for disposal of metal products.
- Do not throw away in regular household waste. Check for recycling options in your area.
- If the product is damaged and cannot be reused, ensure it is disposed of in a manner that does not pose a hazard to others.

Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .244, please refer to the contact information provided by your retailer or manufacturer. Always ensure you have the latest product information and safety updates.

By following these guidelines, you can ensure safe and effective use of your NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .244. Thank you for prioritizing safety in your reloading practices.
