

# WILSON SEATER STEM - 6MM BULLET SEATING STEM

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

The Wilson chamber type bullet seater is a favorite among benchrest shooters. A chamber type bullet seater positively controls both bullet and cartridge case alignment. The case and bullet are completely captured by the die prior to the bullet being pushed straight into the case by a close-fitting seating stem. This style of bullet seater works more accurately than a conventional 7/8"-14 bullet seating die. This is one of the most accurate bullet seaters ever made!

## Attributes

- Name: [6MM BULLET SEATING STEM](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002603
- Mfr. No.: BSD-060
- Caliber: 243/6 mm (.243)

## Safety Instructions

### Introduction

Thank you for choosing the Wilson Seater Stem 6mm Bullet Seating Stem. This product is designed for precision bullet seating, particularly favored by benchrest shooters. To ensure safe and effective use, please read and follow these safety instructions carefully.

### General Safety Guidelines

- Ensure that all users are familiar with the safe handling of reloading equipment and ammunition.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this product.
- Keep the workspace clean and organized to prevent accidents.
- Store the product in a dry, secure location away from children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before each use.

### Specific Safety Precautions for Use

- Do not use the bullet seating stem with any cartridges other than those specified (Caliber: 243/6 mm (.243)).
- Ensure that the bullet and cartridge case are properly aligned before seating.
- Do not force the bullet into the case; if resistance is felt, stop and check for misalignment or obstruction.
- Avoid distractions while using the product to maintain focus and safety.
- Do not exceed the recommended seating depth for the bullet being used.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Insert the Wilson Seater Stem into the appropriate die in the reloading press.
- Tighten the die securely to prevent movement during operation.

#### 2. Usage:

- Prepare your cartridge case and bullet according to standard reloading practices.
- Place the cartridge case in the die, ensuring it is fully seated.
- Insert the bullet into the case mouth, ensuring correct alignment.
- Operate the reloading press to push the bullet into the case using the seating stem.
- Inspect the seated bullet for proper depth and alignment before proceeding with further reloading steps.

### Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in regular household waste; check with local authorities for appropriate disposal methods for reloading equipment.

## **Contact Information for Further Support**

For any questions or concerns regarding the Wilson Seater Stem 6mm Bullet Seating Stem, please contact the manufacturer or your retailer. Ensure you have the product details available for reference.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your Wilson Seater Stem 6mm Bullet Seating Stem. Always prioritize safety and adhere to best practices when handling reloading equipment. Thank you for your attention to these guidelines.
