

# SINCLAIR CASE NECK SORTING TOOL - SINCLAIR INTERNATIONAL 17-20 CALIBER CARBIDE ALIGNMENT ROD

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The Sinclair Case Neck Sorting Tool is designed for the reloader to quickly sort brass by neck wall thickness. Large variances in neck wall thickness can affect the consistency of how the case seals the chamber and is also an indication of variances in body wall thickness. Cases are rotated under an indicator tip while they are supported on a case neck pilot and a support pin through the flash hole. The low profile and stable platform makes for comfortable use and accurate results. The tool works for 22 thru 45 caliber cases and can be used on 17 and 20 caliber cases with the optional carbide alignment rod. Tool can be ordered with or without a dial indicator. Order 17 Caliber and 20 Caliber Sinclair Case Neck Pilots separately. MIC-4 pin fits .060 & .080 flash holes. Available pilot stops. It is intended for use with either a .001" (one thousandth) reading dial indicator or digital indicator, both with a 3/8" shank. This tool will not accept most .0001" (one ten-thousandth) reading dial indicators.

## Attributes

- Name: [SINCLAIR INTERNATIONAL 17-20 CALIBER CARBIDE ALIGNMENT ROD](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749002607
- Mfr. No.: 591200
- Caliber: 17 Caliber (.172), 20 Caliber (.204)
- Cartridge: -
- Delivery weight: 0.023kg
- Shipping height: 10mm
- Shipping width: 10mm
- Shipping length: 86mm

# Safety Instruction Guide for Sinclair Case Neck Sorting Tool

## Introduction

Thank you for choosing the Sinclair Case Neck Sorting Tool. This tool is designed to assist reloaders in sorting brass by neck wall thickness, ensuring consistency and accuracy in your reloading process. To ensure safe and effective use of this product, please read and follow the safety instructions provided in this guide.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the Sinclair Case Neck Sorting Tool by following all instructions. This tool is designed for nonfood use and should be handled with care.
- **Enhanced Recalls:** Stay informed about any product recalls. If a recall occurs, follow the instructions provided to remedy the situation.
- **Online Shopping:** If purchased online, ensure the seller complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** This tool is not intended for use by children. Ensure it is stored out of reach of minors.
- **EU Contact Point:** For safety inquiries, refer to the contact point provided by the retailer or manufacturer.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on product safety.

## Specific Safety Precautions for Use

- **Read Instructions:** Always read and understand the user manual before operating the tool.
- **Personal Protective Equipment:** Wear safety glasses and gloves to protect against potential debris or sharp edges.
- **Work Area:** Use the tool in a clean, welllit workspace to reduce the risk of accidents.
- **Inspect the Tool:** Before each use, inspect the tool for any signs of damage or wear. Do not use if damaged.
- **Proper Handling:** Handle the tool with care. Avoid applying excessive force that may damage the tool or cause injury.
- **Avoid Distractions:** Focus on the task at hand. Avoid distractions while using the tool.
- **Keep Out of Reach:** Store the tool in a secure location out of reach of children and pets.

## Instructions for Installation and Usage

1. **Preparation:** Ensure that you have the necessary components, including the Sinclair Case Neck Sorting Tool and optional carbide alignment rod (if using for 17 and 20 caliber cases).
2. **Set Up the Tool:**
  - Place the tool on a stable surface.
  - Ensure that the dial indicator is properly installed if you are using one.
3. **Loading Cases:**
  - Insert the brass case into the case neck pilot.
  - Ensure that the case is properly supported by the support pin through the flash hole.
4. **Sorting Process:**
  - Rotate the case slowly under the indicator tip.
  - Observe the readings on the dial indicator to assess neck wall thickness.
5. **Recording Results:** Note the measurements for each case to ensure accurate sorting.
6. **Completion:** Once sorting is complete, remove the cases and clean the tool as necessary.

## Disposal Instructions

- **Disposal of the Tool:** When the tool reaches the end of its life or is no longer usable, dispose of it in accordance with local regulations. Consider recycling options if available.
- **Environmental Considerations:** Do not dispose of the tool in general waste. Follow any specific disposal guidelines for tools and equipment in your area.

## Contact Information for Further Support

For any questions or concerns regarding the Sinclair Case Neck Sorting Tool, please refer to the contact information provided by your retailer or the manufacturer. They will be able to assist you with safety inquiries and product support.

Thank you for following these safety instructions. Your safety and the effective use of the Sinclair Case Neck Sorting Tool are our top priorities.
