

SMALL DECAPPING DIE - REDDING SMALL DECAPPING DIE

[Reloading](#) > [Case Cleaning](#) > [Decapping Dies & Accessories](#)

Redding decapping dies allow you to deprime and clean your cases prior to sizing. Their small decapping die will handle cases from .22 thru .50 caliber with case lengths up to 2.5 inches. An optional decapping rod is available for .17 thru .20 caliber cases. This optional rod will also accommodate the small .060 inch flash holes found on the PPC and BR cases. For longer cases lengths up to 3.0 inch, select cases smaller than 7mm in neck size. Dies sold separately or as a complete kit. RD69100 Small Decapping Die RD69200 Large Decapping Die RD69250 Optional .17/.20 Caliber Rod RD69500 Complete Decapping Die Kit (includes both dies and optional rod)

Safety Instruction Guide for Redding Small Decapping Die

Introduction

Thank you for choosing the Redding Small Decapping Die. This guide provides essential safety instructions and information to ensure safe and effective use of the decapping die. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the decapping die is used only for its intended purpose of depriming and cleaning cases prior to sizing.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Ensure that children and vulnerable individuals are kept away from the work area when using the decapping die.
- Regularly inspect the die for any signs of damage or wear. Do not use if damaged.
- If you experience any issues or accidents while using the product, report them to the appropriate authorities.

Specific Safety Precautions for Use

- Use the decapping die only with the specified caliber cases (.22 thru .50 caliber) and lengths (up to 2.5 inches).
- For cases with flash holes smaller than .060 inches, ensure to use the optional decapping rod for .17 and .20 caliber cases.
- Avoid using the die on cases longer than 3.0 inches unless the neck size is smaller than 7mm.
- Do not force the die if it becomes stuck or if you encounter resistance. Instead, stop using it and check for obstructions.
- Ensure that the die is securely mounted to the reloading press before use.

Instructions for Installation and Usage

1. Installation:

- Secure the decapping die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid any movement during use.

2. Usage:

- Insert the case into the die, ensuring it is properly aligned.
- Operate the reloading press to deprime the case.
- If using the optional decapping rod, ensure it is installed correctly for .17 and .20 caliber cases.
- After depriming, remove the case from the die and inspect for any debris or residue.

3. Maintenance:

- Clean the die regularly to prevent buildup of residue.
- Store the die in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or unusable components of the decapping die according to local regulations.
- Do not dispose of the die in regular household waste. Instead, check for local recycling or hazardous waste programs.

Contact Information for Further Support

For any questions, concerns, or safety inquiries regarding the Redding Small Decapping Die, please reach out to your local retailer or manufacturer representative. It is important to ensure that you have access to support for any safetyrelated issues.

Thank you for prioritizing safety while using the Redding Small Decapping Die. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
