

SINCLAIR O-RING ROD GUIDES FOR 338 LAPUA - SINCLAIR INTERNATIONAL 338 LAPUA O-RING ROD GUIDE 0.900" DIAMETER

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

Our Centerfire Cleaning Rod Guides are designed to insert into your action In place of your bolt or bolt carrier. They feature a snout with a silicone "O"-ring that inserts into your chamber, sealing the barrel off from the receiver. The "O"-ring prevents solvents from leaking back into the action area and gumming up the trigger assembly. We currently stock "O"-ring rod guides for over 1000 different action/cartridge combinations. Each rod guide is machined to fit specific actions and cartridge families from .17 up to .338 caliber. Unfortunately some rifle chamberings do not lend themselves to an "O"-ring style rod guide, for these cartridges we recommend one of our Adjustable Cone Style Rod Guides. In an effort to better serve the cleaning needs of our customers, we have upgraded our Sinclair "O"-ring rod guides to include integral solvent ports. This upgrade is now included with every centerfire bolt action rod guide and nearly all AR style rod guides. If you prefer a rod guide without an integral solvent port, please contact us via e-mail or phone and we will happily provide you with a rod guide to your liking. These rod guides without solvent ports will be treated as semi-custom, so please allow 2-4 weeks for delivery of rod guides without solvent ports. There is no additional charge for rod guides without integral solvent ports. Will fit the following Actions: Borden Rimrock, COOPER 54 & 22, COOPER 16(WSSM), BRNO, Browning A-Bolt, CPS, Dakota Arms Model 76, GA Precision Templar, Stiller Viper, Enfield Model 1917, Grunig Elmiger, Hart, Herter Model V9, Husqvarna Model HVA & M8000, HS Precision, Mauser Model 3000, Mauser 38 Swedish Target, Mauser 98 type, McMillan Signature, Remington (all 700, 600 & 7), Ruger Model 77 short and 77 long, S & W Model 1970, Savage 110, 112, 11, 12, Springfield 03A3, Stolle (all), Tanner, Weatherby, Varmintmaster, and Winchester (pre 2010 FN production). SPECIAL NOTE: FN versions of the Model 70 do not all have .700 bolt diameters. Also they have FIXED ejectors so a slot has to be milled down the length of the rod guide body. So any Model 70 made after 2010 that has FN and not Winchester New Haven Connecticut stamped on the receiver is now a CUSTOM ROD GUIDE and you have to check the bolt diameter.

Safety Instruction Guide for Sinclair ORing Rod Guides for 338 Lapua

Introduction

Thank you for choosing the Sinclair ORing Rod Guides for your 338 Lapua. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this guide thoroughly before using the rod guide.

General Safety Guidelines

- Ensure that the rod guide is compatible with your firearm before use. Refer to the specifications provided by the manufacturer.
- Always handle firearms with care and follow standard firearm safety rules.
- Store the rod guide in a safe and dry place, away from children and unauthorized users.
- Regularly inspect the rod guide for any signs of wear or damage. Do not use if damaged.
- Use only approved solvents and cleaning materials with the rod guide.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

Specific Safety Precautions for Use

- Do not attempt to use the rod guide with a firearm that is not designed for it. This may cause injury or damage.
- Ensure that the firearm is unloaded before inserting the rod guide.
- Do not force the rod guide into the chamber. If it does not fit easily, check for compatibility.
- Always use the rod guide in a wellventilated area to avoid inhaling harmful fumes from cleaning solvents.
- Keep your hands and face away from the chamber area when inserting or removing the rod guide.
- If you experience any discomfort or adverse reactions while using cleaning solvents, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded.
- Gather all necessary cleaning materials and solvents.

2. Inserting the Rod Guide:

- Remove the bolt or bolt carrier from your firearm.
- Align the snout of the rod guide with the chamber of the firearm.
- Gently insert the rod guide into the chamber until it is seated properly.

3. Using the Rod Guide:

- Attach your cleaning rod to the rod guide.
- Apply your chosen solvent to the cleaning rod or directly into the rod guide.
- Clean the barrel according to the manufacturer's instructions for your firearm.

4. Removing the Rod Guide:

- Once cleaning is complete, carefully remove the cleaning rod from the rod guide.
- Gently pull the rod guide out of the chamber.

5. **PostUsage:**

- Clean the rod guide with a soft cloth to remove any residue.
- Store the rod guide in a safe location.

Disposal Instructions

- Dispose of any cleaning solvents and materials according to local regulations.
- If the rod guide is damaged beyond repair, dispose of it in accordance with local waste disposal guidelines. Do not throw it in regular trash if it contains hazardous materials.

Contact Information for Further Support

For any inquiries or concerns regarding the Sinclair ORing Rod Guides, please refer to the manufacturer's website or contact their customer support for assistance.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective cleaning process for your firearm.
