

SINCLAIR PRIMING TOOL - UNIVERSAL SHELLHOLDER HEAD

[Reloading](#) > [Priming Tools](#) > [Priming Tool Accessories](#)

The Sinclair Priming Tool is one of the finest tools we manufacture.

Handloaders around the world have told us "this is the best priming tool in the world". The Sinclair Priming Tool is manufactured from the finest materials available. The main body, head, and punch housings are all made of stainless steel, the handle is machined from aircraft grade aluminum, and the pins and pushrod are hardened. These materials insure the owner a lifetime of trouble-free use. The Sinclair Priming Tool comes complete with housings and punches for both large and small primers. The tool head utilizes Sinclair Priming Tool Shellholders and locks the case head square to the priming punch. The leverage of the tool is outstanding, yet extremely sensitive so you can feel the primer entering the primer pocket and bottoming out. Our tool is made for single feeding of primers. Our tool is expensive but made with consideration for quality and to provide the user with a well-made tool that will last a lifetime and more. There are no plastic parts to wear or break. Shellholders purchased separately.

Attributes

Sinclair Priming Tool Universal Shellholder Head Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Priming Tool Universal Shellholder Head. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read through this document carefully before using the tool.

General Safety Guidelines

- Always read and understand all instructions before using the Sinclair Priming Tool.
- Ensure that the tool is used in a welllit and clean workspace to avoid accidents.
- Keep the tool out of reach of children and unauthorized users.
- Regularly inspect the tool for any signs of damage or wear before each use.
- Do not use the tool for any purpose other than its intended use as a priming tool.
- Follow all local regulations regarding the handling and use of ammunition components.

Specific Safety Precautions for Use

- Ensure that the tool is securely set up before loading primers.
- Use only the appropriate Sinclair Priming Tool Shellholders for your specific primer size.
- Always handle primers with care to avoid accidental detonation.
- Avoid using excessive force when operating the tool; it is designed for sensitivity.
- If you feel resistance while using the tool, stop and inspect for any obstructions or issues.
- Do not attempt to modify or repair the tool yourself; contact a professional for assistance.
- Wear safety glasses to protect your eyes from any potential debris during use.

Instructions for Installation and Usage

1. Setup

- Place the Sinclair Priming Tool on a stable, flat surface.
- Ensure that all components, including the head, housing, and punch, are properly assembled.

2. Loading Primers

- Select the correct shellholder for the size of the primer you are using (large or small).
- Insert the shellholder into the tool head and lock it in place.
- Carefully load the primers into the shellholder, ensuring they are seated correctly.

3. Priming Process

- Insert the case into the shellholder, ensuring it is aligned squarely.
- Gently pull the handle to activate the priming punch and seat the primer into the primer pocket.
- You should feel a slight resistance when the primer is seated correctly.

4. PostUse Care

- After use, remove any remaining primers from the shellholder.
- Clean the tool with a soft cloth to remove any debris or residue.
- Store the tool in a safe, dry place away from children and pets.

Disposal Instructions

- Dispose of any unused primers and packaging materials in accordance with local regulations.
- Do not dispose of primers in regular household waste. Consult your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the Sinclair Priming Tool, please refer to the manufacturer's contact information provided with your product packaging.

By following these guidelines, you can ensure a safe and effective experience with your Sinclair Priming Tool Universal Shellholder Head. Thank you for your attention to safety.
