

SINCLAIR O-RING ROD GUIDES FOR 223 FAMILY - O-RING ROD GUIDE, 223 REMINGTON, 0.695" DIAMETER

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

Our Centerfire Cleaning Rod Guides are designed to insert into your action in place of your bolt or bolt carrier. They feature a snout with a silicone "O"-ring that inserts into your chamber, sealing the barrel off from the receiver. The "O"-ring prevents solvents from leaking back into the action area and gumming up the trigger assembly. We currently stock "O"-ring rod guides for over 1000 different action/cartridge combinations. Each rod guide is machined to fit specific actions and cartridge families from .17 up to .338 caliber. Unfortunately some rifle chamberings do not lend themselves to an "O"-ring style rod guide, for these cartridges we recommend one of our Adjustable Cone Style Rod Guides. In an effort to better serve the cleaning needs of our customers, we have upgraded our Sinclair "O"-ring rod guides to include integral solvent ports. This upgrade is now included with every centerfire bolt action rod guide and nearly all AR style rod guides. If you prefer a rod guide without an integral solvent port, please contact us via e-mail or phone and we will happily provide you with a rod guide to your liking. These rod guides without solvent ports will be treated as semi-custom, so please allow 2-4 weeks for delivery of rod guides without solvent ports. There is no additional charge for rod guides without integral solvent ports. Will fit the following Actions: Borden Rimrock, COOPER 54 & 22, COOPER 16(WSSM), BRNO, Browning A-Bolt, CPS, Dakota Arms Model 76, GA Precision Templar, Stiller Viper, Enfield Model 1917, Grunig Elmiger, Hart, Herter Model V9, Husqvarna Model HVA & M8000, HS Precision, Mauser Model 3000, Mauser 38 Swedish Target, Mauser 98 type, McMillan Signature, Remington (all 700, 600 & 7), Ruger Model 77 short and 77 long, S & W Model 1970, Savage 110, 112, 11, 12, Springfield 03A3, Stolle (all), Tanner, Weatherby, Varmintmaster, and Winchester (pre 2010 FN production). SPECIAL NOTE: FN versions of the Model 70 do not all have .700 bolt diameters. Also they have FIXED ejectors so a slot has to be milled down the length of the rod guide body. So any Model 70 made after 2010 that has FN and not Winchester New Haven Connecticut stamped on the receiver is now a CUSTOM ROD GUIDE and you have to check the bolt diameter.

Attributes

- Name: [O-RING ROD GUIDE, 223 REMINGTON, 0.695" DIAMETER](#)

Safety Instruction Guide for SINCLAIR ORING ROD GUIDES FOR 223 FAMILY

Introduction

Thank you for choosing the SINCLAIR ORING ROD GUIDE for your cleaning needs. This guide provides essential safety information and instructions for the safe use, installation, and disposal of this product. Please read this guide carefully to ensure safe handling and operation.

General Safety Guidelines

To ensure your safety and the safety of others while using the SINCLAIR ORING ROD GUIDE, please observe the following guidelines:

- Always ensure that the firearm is unloaded before inserting the rod guide.
- Use the rod guide only with compatible actions and cartridges as specified in the product description.
- Inspect the rod guide for any damage before use. Do not use if damaged.
- Store the rod guide in a safe and dry place, out of reach of children.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.
- Report any unsafe conditions or accidents involving the product to the appropriate authorities.

Specific Safety Precautions for Use

When using the SINCLAIR ORING ROD GUIDE, please follow these specific safety precautions:

- Ensure that the "O"ring is properly seated in the chamber before use to prevent solvent leaks.
- Avoid using excessive force when inserting or removing the rod guide to prevent damage to the firearm or the guide.
- Do not use the rod guide with firearms that require a custom rod guide unless specified.
- Always wear appropriate safety gear, such as gloves and eye protection, when handling solvents or cleaning products.
- Keep solvents and cleaning materials out of reach of children and pets.

Instructions for Installation and Usage

To ensure proper installation and usage of the SINCLAIR ORING ROD GUIDE, follow these steps:

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary cleaning supplies, including cleaning rods, solvents, and patches.

2. Installation:

- Remove the bolt or bolt carrier from the firearm action.
- Insert the SINCLAIR ORING ROD GUIDE into the chamber until it is seated properly.
- Ensure that the silicone "O"ring is sealing the chamber to prevent solvent leakage.

3. Usage:

- Attach the cleaning rod to the guide.
- Proceed with your cleaning routine, ensuring that you do not apply excessive force.
- After cleaning, remove the cleaning rod and the rod guide from the chamber.

4. PostUse:

- Clean the rod guide with a suitable solvent and dry it before storing.
- Inspect the rod guide for wear or damage after each use.

Disposal Instructions

When disposing of the SINCLAIR ORING ROD GUIDE, please adhere to the following guidelines:

- Check local regulations for proper disposal of cleaning supplies and materials.
- Dispose of any damaged or worn components in accordance with local waste management guidelines.
- Do not dispose of the rod guide in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any inquiries regarding the SINCLAIR ORING ROD GUIDE, including safety concerns or product support, please refer to the contact details provided by your retailer or manufacturer.

Thank you for your attention to these safety instructions. Proper handling and care will ensure the longevity of your SINCLAIR ORING ROD GUIDE and safe operation during cleaning.
