

# MATCH GRADE BUSHING - HORNADY MATCH GRADE BUSHING/.246

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Hornady match Grade Dies feature interchangeable neck sizing bushings that are self centering. The bushings allow the user to size the case neck to the bullet tension you desire. This eliminates the chance of over-sizing your case necks and overworking the brass. Bushings are available in .002 inch increments. The Match Grade Full Length Die will size the case body, bump the shoulder and size the case neck with the selected bushing. The Match Grade Neck Die sizes the neck with the installed bushing and bumps the shoulder only (no body sizing). Both versions feature a self centering decap spindle with an o-ring spindle tensioner, and the elliptical expander ball with headed decap pin - the same pin used in the Custom Grade Dies. These bushing sizer dies have some unique features and are very well made and finished.

## Attributes

- Name: [HORNADY MATCH GRADE BUSHING/.246](#)
- Manufacturer: [HORNADY](#)
- Product no.: 749003019
- Mfr. No.: 594246

# Safety Instruction Guide for Hornady Match Grade Bushing

## Introduction

Thank you for choosing the Hornady Match Grade Bushing. This product is designed to provide precision and reliability for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle reloading equipment and components with care to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for wear and damage to ensure safe operation.
- Follow all local laws and regulations regarding reloading and ammunition.

## Specific Safety Precautions for Use

- Always wear safety glasses when using reloading equipment.
- Do not exceed recommended load limits when using the bushing.
- Ensure that the bushing is properly seated in the die before use.
- Avoid using the bushing if it shows signs of wear or damage.
- Do not force the bushing into the die; it should fit snugly without excessive pressure.

## Instructions for Installation and Usage

### 1. Installation of the Bushing:

- Ensure the die is clean and free of debris.
- Insert the selected neck sizing bushing into the die until it is fully seated.
- Secure the bushing in place according to the die's instructions.

### 2. Using the Match Grade Full Length Die:

- Place the case into the shell holder.
- Raise the ram to size the case body and bump the shoulder.
- Lower the ram and remove the sized case.

### 3. Using the Match Grade Neck Die:

- Place the case into the shell holder.
- Raise the ram to size the neck only, without resizing the body.
- Lower the ram and remove the sized case.

### 4. PostUse Care:

- Clean the die and bushing after each use to remove any residue.
- Store the bushing in a dry and secure location.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.

- Do not throw away in regular household waste; check for recycling options for metal components.

## **Contact Information for Further Support**

For any inquiries or safety concerns regarding the Hornady Match Grade Bushing, please refer to the manufacturer's website or contact their customer support directly.

By following these guidelines, you can ensure the safe use of the Hornady Match Grade Bushing while enjoying the precision and performance it offers. Thank you for your attention to safety.
