

# NECK REAMER - FORSTER PRODUCTS, INC. 0.2455" INSIDE NECK REAMER

[Reloading](#) > [Case Preparation](#) > [Case Neck Reamers](#)

Forster Inside Neck reamers are designed to remove excess brass from the inside of case neck walls. The Forster Neck Reamer is manufactured from high grade, wear-resistant tool steel and ground .0025" to .003" over the maximum bullet diameter. Constructed with a staggered tooth design so that brass is cut smoothly and without chatter. Neck reaming should only be performed after the cases have been fired with a full load and before the neck or full length sizing operation. Wall thickness can be measured with a tubing micrometer, but a simpler test for excess brass in the neck area is to slide a bullet into a fired, unsized case neck. If you feel interference, the neck should be reamed or outside neck turned.

Inside Neck Reamer .243 Bullet Diameter (.245-.2455)

Wildcat conversions using the .224" bullet with .2200" inside neck diameter and .243" bullet with .2390" inside neck diameter, Forster offers inside neck reamers for these sizes. Use after the CASE sizing operation.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 0.2455" INSIDE NECK REAMER](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 749003034
- Mfr. No.: NR1243
- Caliber: 243/6 mm (.243)
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 64mm
- Shipping length: 76mm
- UPC: 757253004896

# NECK REAMER SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Inside Neck Reamer .243 Bullet Diameter (.245.2455) from Forster Products, Inc. This product is designed to help you achieve precision in your reloading tasks. However, to ensure your safety and the safety of others, it is essential to follow the guidelines outlined in this manual. This document complies with the EU General Product Safety Regulation (GPSR) to provide you with the necessary information for safe use.

## General Safety Guidelines

- Ensure that the Inside Neck Reamer is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including safety glasses and gloves, when using the reamer.
- Inspect the tool for any damage or wear before use. Do not use if damaged.
- Store the reamer in a safe, dry place when not in use to prevent accidents.
- Report any unsafe product incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Do not exceed the recommended bullet diameter specifications (.245.2455) when using the reamer.
- Avoid using the reamer in wet or damp conditions to prevent slipping and accidents.
- Ensure that the reamer is securely attached to the drill or power tool before use.
- Do not force the reamer through the material; let the tool do the work to avoid breakage.
- Always maintain a firm grip on the reamer and the casing being worked on.
- Be cautious of sharp edges and burrs that may form during use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials, including the Inside Neck Reamer, a suitable power tool, and safety equipment.
- Ensure your workspace is clean and organized to prevent accidents.

### 2. Installation:

- Securely attach the Inside Neck Reamer to the drill or power tool according to the manufacturer's instructions.
- Ensure that the tool is tightened properly to prevent slippage during operation.

### 3. Usage:

- Position the casing securely in a vice or suitable holder to prevent movement.
- Align the reamer with the neck of the casing.
- Start the drill or power tool at a low speed to ensure control.
- Gradually increase the speed as needed, allowing the reamer to cut through the material without excessive force.
- After achieving the desired depth, carefully remove the reamer from the casing.
- Inspect the casing for any burrs or sharp edges and clean as necessary.

### 4. Post Use:

- Clean the reamer after use to remove any debris or residue.
- Store the reamer in its designated place to prevent damage and accidents.

## **Disposal Instructions**

- Dispose of the Inside Neck Reamer in accordance with local regulations regarding metal waste.
- Do not dispose of the product in regular household waste.
- If the reamer is no longer usable, consider recycling options available in your area.

## **Contact Information for Further Support**

For additional questions or concerns regarding the use of the Inside Neck Reamer, please refer to the manufacturer's contact details provided on the packaging or visit the official website of Forster Products, Inc.

By following these safety instructions, you can ensure a safe and effective experience while using the Inside Neck Reamer. Your adherence to these guidelines not only protects you but also contributes to the overall safety of the reloading community. Thank you for your attention to safety.
