# Redding Stuck Case Removal Kit Safety Instructions

## Introduction

Thank you for purchasing the Redding Stuck Case Removal Kit. This kit is designed to help you safely and effectively remove stuck cases from your firearm. Please read and follow these safety instructions carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the Redding Stuck Case Removal Kit in a wellventilated area.
- Keep the kit out of reach of children and vulnerable individuals.
- Inspect all components of the kit before use for any signs of damage or wear.
- Use personal protective equipment (PPE) such as safety glasses and gloves when operating the kit.
- Follow all local laws and regulations regarding the use of firearms and tools.

## Specific Safety Precautions for Use

- **Drilling Precautions:**
  - Ensure the firearm is unloaded before starting.
  - Use the correct drill bit size as specified in the kit instructions.
  - Secure the firearm in a stable position to prevent movement during drilling.
- **Tapping Precautions:**
  - Use the provided tap carefully to avoid damaging the threads.
  - Apply moderate pressure; do not force the tap.
- **Using the Bolt and Spacer Block:**
  - Ensure the bolt is threaded properly into the tapped hole.
  - Use the spacer block to provide leverage without damaging the firearm.
- **Wrench Usage:**
  - Use the wrench to apply even pressure when removing the stuck case.
  - Avoid overtightening, which may cause damage to the firearm or kit components.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded and safe to work on.
- Gather all components of the Redding Stuck Case Removal Kit.

### 2. Drilling:

- Select the correct drill bit from the kit.
- Secure the firearm in a vice or stable surface.
- Carefully drill a hole into the stuck case, ensuring not to damage the firearm itself.

### 3. Tapping:

- Insert the tap into the drilled hole.
- Carefully turn the tap to create threads, applying moderate pressure.

### 4. Removing the Stuck Case:

- Insert the bolt into the tapped hole.
- Place the spacer block against the firearm.
- Use the wrench to turn the bolt and apply leverage to extract the stuck case.

#### **5. Completion:**

- Once the case is removed, inspect the firearm for any damage or debris.
- Clean the area and tools used during the process.

## **Disposal Instructions**

- Dispose of any damaged components of the kit in accordance with local regulations.
- Do not dispose of the kit in regular household waste. Check local guidelines for proper disposal of tools and materials.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the contact details provided by the manufacturer or retailer at the time of purchase.

## **Conclusion**

Following these safety instructions will help ensure a safe and effective experience with the Redding Stuck Case Removal Kit. Always prioritize safety and compliance with local regulations when using this product. Thank you for choosing Redding.
