

WILSON PISTOL MAX CASE GAGES - L.E. WILSON PISTOL MAX GAGE 41 MAG

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

The most important use of a cartridge case gage is for setting up 7/8"-14 press type full length resizing dies. A common error in reloading is to oversize your brass. Headspace of fired cases can quickly and accurately be measured using this tool and a caliper. Pistol Max Gages: Used to check all critical dimensions of the pistol case - mouth diameter, base diameter, rim thickness and diameter, case overall length and bullet diameter

Safety Instruction Guide for WILSON PISTOL MAX CASE GAGES

Introduction

Thank you for choosing the WILSON PISTOL MAX CASE GAGES. This product is designed to help you measure and ensure the proper sizing of your cartridge cases. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the WILSON PISTOL MAX CASE GAGES in a welllit and clean environment.
- Keep the gage out of reach of children and unauthorized users.
- Inspect the gage before each use for any signs of damage or wear.
- Do not use the gage for any purpose other than intended.
- If you encounter any issues or suspect the product is defective, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that you are familiar with the principles of reloading before using this tool.
- Always wear safety glasses to protect your eyes from any debris or particles.
- Handle all components of the reloading process with care to avoid injury.
- Do not exceed the manufacturer's recommended specifications for cartridge dimensions.
- Be cautious of sharp edges on the gage and other tools used in conjunction with it.

Instructions for Installation and Usage

1. Setup:

- Place the gage on a stable, flat surface.
- Ensure that the gage is clean and free from any obstructions.

2. Measuring Cases:

- Insert the cartridge case into the gage.
- Check the following dimensions:
 - Mouth diameter
 - Base diameter
 - Rim thickness and diameter
 - Overall case length
 - Bullet diameter
- Use a caliper for precise measurements as needed.

3. Adjusting Reloading Dies:

- Use the measurements obtained from the gage to set up your 7/8"14 press type fulllength resizing dies.
- Make necessary adjustments to avoid oversizing your brass.

4. PostUse Care:

- Clean the gage after each use to maintain its accuracy and longevity.

- Store the gage in a safe place, preferably in a protective case or pouch.

Disposal Instructions

- Dispose of the WILSON PISTOL MAX CASE GAGES in accordance with local regulations.
- If the product is no longer usable, consider recycling materials where applicable.

Contact Information for Further Support

For any inquiries regarding the safety or use of the WILSON PISTOL MAX CASE GAGES, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your WILSON PISTOL MAX CASE GAGES. Always prioritize safety and adhere to the guidelines to protect yourself and others during the reloading process. Thank you for your attention to these important safety measures.
