

# PROFILE CRIMP HANDGUN DIES - REDDING PROFILE CRIMP DIE 45 AUTO RIM

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These handgun cartridge crimp dies were designed for those who want the best possible crimp. Profile crimp dies provide tighter, more uniform roll type crimp, and requires the bullet to be seated to the correct depth in a previous operation. These dies are not for cartridges that headspace on the case mouth.

# Safety Instruction Guide for PROFILE CRIMP HANDGUN DIES

## Introduction

Thank you for choosing the Redding Profile Crimp Die for your 45 Auto (ACP) handgun cartridges. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before use to understand the necessary precautions and instructions.

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to crimp 45 Auto (ACP) handgun cartridges.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment.
- Keep the reloading area clean and organized to prevent accidents.
- Store the dies in a dry and secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow local laws and regulations regarding the reloading of ammunition.

## Specific Safety Precautions for Use

- This die is designed for cartridges that require the bullet to be seated to the correct depth in a previous operation. Ensure this step is completed before crimping.
- Do not use this die for cartridges that headspace on the case mouth, as this may lead to unsafe conditions.
- Avoid overcrimping, which can lead to bullet deformation or unsafe pressure levels.
- Ensure that the reloading press is securely mounted and stable before operation.
- Always doublecheck measurements and settings before starting the reloading process.
- Do not exceed manufacturer recommended load data for the cartridges being used.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is turned off and unplugged (if applicable).
- Remove any existing die from the press.
- Install the Redding Profile Crimp Die into the press by following these steps:
  - Thread the die into the press's die holder until it is snug.
  - Adjust the die to the desired height according to your reloading setup.
  - Lock the die in place using the locking ring to prevent movement during use.

### 2. Usage:

- Prepare your cartridge cases and ensure they are clean and properly resized.
- Seat the bullet to the correct depth in a previous operation.
- Insert the cartridge into the shell holder of the reloading press.
- Slowly raise the ram to engage the die and crimp the bullet.
- After crimping, carefully remove the cartridge from the shell holder.
- Inspect the crimp to ensure it is uniform and meets your specifications.

## Disposal Instructions

- Dispose of any unused or damaged cartridges and components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact local authorities or waste management services for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Redding Profile Crimp Die, please reach out to the manufacturer or refer to the product's official website for additional resources and support.
