Handgun Taper Crimp Dies Safety Instruction Guide

Introduction

Thank you for choosing the Redding Taper Crimp Die for 10 mm Auto cartridges. This guide provides essential safety instructions to ensure the safe use of this product. Please read and follow these guidelines carefully to minimize risks and ensure proper handling.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is for handloading 10 mm Auto cartridges.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the die and workspace clean and free from obstructions to prevent accidents.
- Store the die in a safe place, out of reach of children and pets.
- Familiarize yourself with the reloading process and best practices before use.
- Regularly inspect the die for any signs of damage or wear. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the 10 mm Auto cartridge.
- Use only compatible components, including cases, primers, and powders, as specified by reputable reloading manuals.
- Ensure that the die is securely mounted to the reloading press before use.
- Avoid distractions while reloading to maintain focus and concentration.
- If you experience any malfunctions or unusual noises during operation, stop immediately and investigate the cause.
- Keep fingers and hands clear of moving parts during operation.
- Always ensure that the workspace is wellventilated when using powders or primers.

Instructions for Installation and Usage

1. Installation:

- Select a reloading press compatible with the Redding Taper Crimp Die.
- Securely mount the die into the press according to the manufacturer's instructions.
- Adjust the die to ensure proper alignment with the cartridge case.

2. Usage:

- Begin by preparing your cartridge cases according to standard reloading practices.
- Insert the prepared cartridge case into the reloading press.
- Pull the handle of the press to apply the taper crimp to the case mouth.
- Inspect the crimped cartridge to ensure it meets the desired specifications.
- Repeat the process for additional cartridges as needed.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Check with local waste management for proper disposal methods.

- Keep all packaging materials out of reach of children and pets.

Contact Information for Further Support

For safety inquiries or additional support, please refer to the contact details provided on the product packaging or visit the manufacturer's website.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Redding Taper Crimp Die for 10 mm Auto cartridges. Always prioritize safety and stay informed about best practices in ammunition reloading.
