

# BULLET SEATER DIES - RCBS SEATER DIE 25 WSSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

RCBS bullet seaters may also be purchased separately. Some reloaders like to have a separate seater die adjusted for each different bullet they shoot, or for different rifles of the same cartridge. RCBS seater dies have built-in taper or roll crimp ring appropriate for the cartridge. Seater dies are packed in an RCBS plastic die box and will fit any 7/8 to 14 reloading press.

## Attributes

- Name: [RCBS SEATER DIE 25 WSSM](#)
- Manufacturer: [RCBS](#)
- Product no.: 749003307

# Safety Instruction Guide for RCBS Bullet Seater Die 25 WSSM

## Introduction

Thank you for choosing the RCBS Bullet Seater Die 25 WSSM. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the die and keep it for future reference.

## General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Ensure that the reloading press is compatible with the die (7/8 to 14 thread).
- Handle all reloading components with care to prevent accidents.
- Store the die and all reloading components in a secure location, out of reach of children.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow local laws and regulations regarding ammunition reloading and safety.

## Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses and gloves, while reloading ammunition.
- Ensure that your workspace is clean, organized, and free of distractions.
- Do not exceed the recommended load data provided by reputable sources.
- Avoid using damaged or worn components, as they may pose safety risks.
- Be aware of the potential hazards associated with the materials used in reloading, including primers and powders.
- In case of an emergency, know the proper procedures for handling reloading accidents.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Thread the RCBS Bullet Seater Die into the press until it is snug, but do not overtighten.
- Adjust the die to the desired seating depth according to your specific bullet and cartridge requirements.

### 2. Usage:

- Prepare your cases by cleaning and resizing them before seating bullets.
- Place a bullet into the case mouth.
- Raise the ram of the reloading press to bring the case into contact with the die.
- Slowly lower the ram to seat the bullet to the desired depth.
- Check the seating depth with calipers to ensure consistency.
- Repeat the process for additional rounds, monitoring each step for safety and accuracy.

## Disposal Instructions

- Dispose of any unused or outdated reloading components in accordance with local regulations.
- Do not throw away used primers or powders in regular trash; consult local hazardous waste disposal guidelines.
- Keep the die and all components stored properly until disposal to avoid accidental use.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the RCBS Bullet Seater Die 25 WSSM, please refer to the manufacturer's contact information provided with your product packaging.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and enjoyable reloading experience with your RCBS Bullet Seater Die 25 WSSM. Always prioritize safety and stay informed about best practices in ammunition reloading. Thank you for your attention to these important safety measures.
