

# BULLET SEATER DIES - RCBS SEATER DIE 218 BEE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

RCBS bullet seaters may also be purchased separately. Some reloaders like to have a separate seater die adjusted for each different bullet they shoot, or for different rifles of the same cartridge. RCBS seater dies have built-in taper or roll crimp ring appropriate for the cartridge. Seater dies are packed in an RCBS plastic die box and will fit any 7/8 to 14 reloading press.

## Attributes

- Name: [RCBS SEATER DIE 218 BEE](#)

# Safety Instruction Guide for RCBS Bullet Seater Dies 218 Bee

## Introduction

Thank you for choosing the RCBS Bullet Seater Die 218 Bee. This product is designed to assist you in safely and effectively seating bullets for your reloading needs. Please read and follow these safety instructions carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that you are familiar with the reloading process and the specific requirements for the 218 Bee cartridge before using this product.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage; do not use if damaged.
- Report any unsafe products or accidents to the relevant authorities, and check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the 218 Bee cartridge.
- Only use this die with compatible reloading presses (7/8 to 14 thread).
- Ensure that the die is properly adjusted before use to avoid seating bullets incorrectly.
- Avoid distractions while reloading to maintain focus and accuracy.
- Follow the manufacturer's instructions for adjusting the crimp ring as improper crimping can lead to dangerous ammunition.
- Do not modify the die or use it for purposes other than its intended use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Clean the threads of the die and the press to ensure a proper fit.
- Screw the RCBS Bullet Seater Die into the reloading press until it is snug, but do not overtighten.
- Adjust the die to the desired seating depth according to your bullet specifications.

### 2. Usage:

- Prepare your brass cases by cleaning and inspecting them for defects.
- Insert the prepared case into the reloading press.
- Place a bullet into the case mouth, ensuring it is seated correctly.
- Operate the press to seat the bullet. Check the seating depth with a caliper to ensure accuracy.
- After seating, inspect the completed round for any irregularities.

## Disposal Instructions

- Dispose of any unused or damaged reloading components in accordance with local regulations.
- Do not dispose of any metal parts in regular household waste; check for recycling options in your area.
- Ensure that all components are stored safely until disposal to prevent accidents.

## **Contact Information for Further Support**

For any questions or concerns regarding the RCBS Bullet Seater Die 218 Bee, please refer to the manufacturer's website or contact their customer service. Ensure you have the product details ready for a more efficient inquiry.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience safely and responsibly.
