

BULLET SEATER DIES - RCBS SEATER DIE 8MM REM MAG

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

RCBS bullet seaters may also be purchased separately. Some reloaders like to have a separate seater die adjusted for each different bullet they shoot, or for different rifles of the same cartridge. RCBS seater dies have built-in taper or roll crimp ring appropriate for the cartridge. Seater dies are packed in an RCBS plastic die box and will fit any 7/8 to 14 reloading press.

Attributes

Safety Instruction Guide for RCBS Bullet Seater Dies 8mm Rem Mag

Introduction

Thank you for choosing the RCBS Bullet Seater Die for 8mm Remington Mag. This product is designed to enhance your reloading experience by ensuring precision and safety. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
- Ensure that your reloading area is clean, welllit, and free from distractions.
- Keep the reloading press and all related tools out of reach of children and unauthorized users.
- Familiarize yourself with the operation of your reloading press and the specific die before use.
- Regularly inspect your equipment for wear and damage. Replace any damaged parts immediately.

Specific Safety Precautions for Use

- Ensure that you are using the correct die for the specific cartridge to avoid malfunction.
- Do not exceed the recommended load specifications for the 8mm Remington Mag cartridge.
- Avoid using damaged or worn bullets, as they may affect the seating process and overall safety.
- Always doublecheck the adjustment of the die before starting the reloading process.
- Never attempt to adjust the die while the press is in operation.

Instructions for Installation and Usage

1. Installation of the Die:

- Ensure the reloading press is turned off and safe to operate.
- Remove the existing die from the press, if applicable.
- Insert the RCBS Bullet Seater Die into the press and secure it tightly.
- Adjust the die according to the manufacturer's instructions for the desired bullet seating depth.

2. Using the Die:

- Prepare the cartridge case by ensuring it is clean and free from obstructions.
- Place the bullet into the case mouth.
- Operate the reloading press to seat the bullet firmly into the case.
- Check the seating depth with calipers to ensure it meets your specifications.
- Repeat the process for each cartridge, ensuring consistent results.

3. PostUse Care:

- Clean the die after use to prevent residue buildup.
- Store the die in its original RCBS plastic die box when not in use.
- Keep the die in a dry place to prevent rust and corrosion.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the RCBS Bullet Seater Die, please refer to the manufacturer's contact information provided with the product.

Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with your RCBS Bullet Seater Die for 8mm Remington Mag. Always prioritize safety and consult the product manual for additional information and guidance.
