

TITANIUM NITRIDE NECK BUSHINGS - REDDING TITANIUM NITRIDE BUSHING/.228

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings as above, but with the addition of a Titanium Nitride coating to further increase the effective surface hardness and reduce sizing friction. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD76XXX) denotes bushing size. .185 to .252 .253 to .305 .306 to .368

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING TITANIUM NITRIDE BUSHING/.228](#)
- Manufacturer: [REDDING](#)
- Product no.: 749003392
- Mfr. No.: 76228
- Diameter (in): .228
- Delivery weight: 0.045kg
- Shipping height: 3mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760762284

Safety Instruction Guide for TITANIUM NITRIDE NECK BUSHINGS

Introduction

Thank you for purchasing the TITANIUM NITRIDE NECK BUSHINGS by REDDING. This guide provides essential safety information to ensure the safe use of this product. Please read and follow these instructions carefully to minimize risks and enhance your experience.

General Safety Guidelines

- Always ensure that the bushings are compatible with your equipment before use.
- Inspect the bushings for damage or wear before each use. Do not use damaged bushings.
- Follow all manufacturer guidelines and safety instructions when using this product.
- Store bushings in a dry and safe environment to prevent corrosion or damage.
- Keep bushings out of reach of children and pets.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Avoid contact with sharp edges or surfaces to prevent injury.
- Ensure that the workspace is clean and free of obstructions before installation.
- Do not exceed the recommended sizing limits to avoid equipment malfunction or damage.
- If you experience any difficulty during use, stop immediately and consult the manufacturer for assistance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment required for installation.
- Ensure that your workspace is clean and organized.

2. Installation:

- Carefully remove the bushing from its packaging.
- Inspect the bushing for any visible defects or damage.
- Align the bushing with the designated area of your equipment.
- Gently press or insert the bushing into place, ensuring a snug fit.

3. Usage:

- Once installed, operate your equipment according to the manufacturer's instructions.
- Monitor the bushing during use for any signs of wear or damage.
- If any issues arise, cease operation and inspect the bushing immediately.

Disposal Instructions

- Dispose of the bushings according to local regulations regarding metal waste.
- Do not dispose of bushings in regular household trash.
- Consider recycling options if available.

Contact Information for Further Support

For any safety inquiries, concerns, or to report unsafe products, please contact the appropriate authorities or your local consumer safety agency.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority.
