

# PROFILE CRIMP HANDGUN DIES - REDDING PROFILE CRIMP DIE 38 SPECIAL/357 MAGNUM

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

These handgun cartridge crimp dies were designed for those who want the best possible crimp. Profile crimp dies provide tighter, more uniform roll type crimp, and requires the bullet to be seated to the correct depth in a previous operation. These dies are not for cartridges that headspace on the case mouth.

# Safety Instruction Guide for PROFILE CRIMP HANDGUN DIES

## Introduction

Thank you for choosing the Redding Profile Crimp Die for 38 Special/357 Magnum. This product is designed to provide the best possible crimp for your handgun cartridges. To ensure safe and effective use, please carefully read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always ensure that you are using the die in accordance with the manufacturer's instructions.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Use protective eyewear and gloves when handling reloading equipment and components.
- Inspect the die for any damage or wear before each use.
- Ensure that your reloading bench is clean and organized to prevent accidents.
- Report any unsafe products or accidents to the appropriate authorities and check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Improper use of the die may lead to accidents, including misfires or damage to the firearm.
- Ensure that the bullet is seated to the correct depth before crimping.
- This die is not suitable for cartridges that headspace on the case mouth.

### • Avoiding Hazards:

- Always doublecheck your work to ensure proper seating depth and crimping.
- Do not exceed the recommended load specifications for your cartridges.
- Ensure that your workspace is wellventilated and free from flammable materials.
- Use the die only for its intended purpose; do not modify or alter the die in any way.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in the reloading press according to the manufacturer's instructions.
- Ensure that the die is properly aligned with the press and tightened securely.

### 2. Usage:

- Prepare your cartridge cases and ensure they are clean and free of debris.
- Seat the bullet to the correct depth in a previous operation before crimping.
- Adjust the die to achieve the desired crimp by following the manufacturer's specifications.
- Perform a test crimp on a sample cartridge to ensure proper function before proceeding with production.

### 3. PostUse:

- After use, clean the die to remove any residue or debris.
- Store the die in a safe, dry place away from direct sunlight and moisture.

## **Disposal Instructions**

- Dispose of any defective or damaged dies in accordance with local regulations.
- Recycle packaging materials where possible.
- Ensure that all reloading components are disposed of safely to prevent environmental contamination.

## **Contact Information for Further Support**

For any inquiries or further assistance regarding the Redding Profile Crimp Die, please contact the manufacturer or your local distributor. Ensure that you have the product details and any relevant information ready for a more efficient response.

By adhering to these safety guidelines and instructions, you can ensure a safer reloading experience with your Redding Profile Crimp Die. Thank you for your attention to safety.
