

TITANIUM NITRIDE NECK BUSHINGS - REDDING TITANIUM NITRIDE BUSHING/.339

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings as above, but with the addition of a Titanium Nitride coating to further increase the effective surface hardness and reduce sizing friction. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD76XXX) denotes bushing size. .185 to .252 .253 to .305 .306 to .368

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING TITANIUM NITRIDE BUSHING/.339](#)
- Manufacturer: [REDDING](#)
- Product no.: 749003467
- Mfr. No.: 76339
- Diameter (in): .339
- Delivery weight: 0.045kg
- Shipping height: 3mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760763397

Safety Instruction Guide for TITANIUM NITRIDE NECK BUSHINGS

Introduction

Thank you for choosing the TITANIUM NITRIDE NECK BUSHINGS by Redding. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before using the bushings.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the bushings by following the instructions provided. The bushings are designed for specific applications and should not be used for any other purposes.
- **Enhanced Recalls:** In the event of a safety issue, recall notices will be issued. Always check for updates regarding product recalls.
- **Online Shopping:** When purchasing online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when using this product around vulnerable groups, including children.
- **EU Contact Point:** For any safety inquiries, please refer to your local EU contact point for assistance.
- **Rapid Alerts:** Stay informed about any unsafe products through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The bushings are made of heat treated steel and coated with Titanium Nitride, which enhances surface hardness.
 - Misuse or improper installation can lead to equipment malfunction or personal injury.
- **Avoiding Hazards:**
 - Always inspect the bushings for any visible damage before use.
 - Ensure that the bushings are compatible with your equipment.
 - Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- **Age Restrictions:** This product is intended for use by individuals who are at least 18 years old. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**
 - Ensure that the work area is clean and free of obstructions.
 - Check that the equipment is turned off and disconnected from any power source before installation.
 - Align the bushing correctly with the equipment specifications.
 - Secure the bushing in place according to the manufacturer's instructions.
- **Usage:**
 - Use the bushings only for their intended purpose, which is to aid in the sizing process.
 - Regularly check the bushings for wear and tear during use.
 - If you notice any irregularities or performance issues, stop using the bushings immediately and consult a professional.

Disposal Instructions

- Dispose of the bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste.
- Consider recycling options for metal components to minimize environmental impact.

Contact Information for Further Support

For any questions or further assistance regarding the TITANIUM NITRIDE NECK BUSHINGS, please refer to your local retailer or the manufacturer's website for support resources.

By following these safety instructions, you can ensure that you are using the TITANIUM NITRIDE NECK BUSHINGS safely and effectively. Thank you for your attention to these important guidelines.
