

# TITANIUM NITRIDE NECK BUSHINGS - REDDING TITANIUM NITRIDE BUSHING/.326

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings as above, but with the addition of a Titanium Nitride coating to further increase the effective surface hardness and reduce sizing friction. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD76XXX) denotes bushing size. .185 to .252 .253 to .305 .306 to .368

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING TITANIUM NITRIDE BUSHING/.326](#)
- Manufacturer: [REDDING](#)
- Product no.: 749003489
- Mfr. No.: 76326
- Diameter (in): .326
- Delivery weight: 0.045kg
- Shipping height: 3mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760763267

# Safety Instruction Guide for TITANIUM NITRIDE NECK BUSHINGS

## Introduction

Thank you for choosing the Redding Titanium Nitride Neck Bushings. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

## General Safety Guidelines

- **Product Safety:** Ensure safe handling and use of the bushings. Follow all instructions to avoid risks associated with improper use.
- **Enhanced Recalls:** Stay informed about potential recalls. Check regularly for updates on product safety.
- **Online Shopping:** If purchased online, ensure that you are buying from a reputable seller who complies with safety standards.
- **Special Consumer Focus:** Use caution when handling this product, especially around children. Keep out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for quick updates regarding unsafe products.

## Specific Safety Precautions for Use

- **Potential Hazards:**

- Risk of injury if used improperly.
- Sharp edges may cause cuts.
- Improper installation may lead to equipment malfunction.

- **Instructions for Avoiding Hazards:**

- Always wear appropriate safety gear, including gloves and eye protection.
- Inspect bushings for any damage before use.
- Do not use if damaged or if the coating is compromised.
- Ensure proper fitting with your equipment to avoid accidents.

## Instructions for Installation and Usage

- **Installation:**

- Ensure that the firearm or equipment is unloaded before installation.
- Clean the area where the bushing will be installed to remove any debris.
- Align the bushing with the designated area and gently press it into place until secure.
- Confirm that the bushing is properly seated and does not move freely.

- **Usage:**

- Use the bushings only for their intended purpose.
- Regularly check the bushings for wear and tear during use.
- If you notice any unusual sounds or performance issues, stop using the equipment immediately and inspect the bushings.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check for local recycling programs or hazardous waste disposal options.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Redding Titanium Nitride Neck Bushings, please refer to the retailer or manufacturer's contact information provided at the time of purchase.

Thank you for your attention to these safety instructions. Your safety is our priority.
